### A Place to Live in or Just a Workshop?

Grandmother made her own soap, salted and smoked her own meats, baked her own bread and did her own washing. The modern home-maker regards the home as a place to live, rather than a workshop or factory.

Good housekeeping today consists of taking advantage—in the most economical and efficient way—of the housekeeping helps which science and invention offer.

Foremost among these is the modern laundry . . . an institution which relieves you of all toil and drudgery of washday. Let us show you how much we can lighten the family house work, and how many tasks we can take off your hands, and how much more time we can give you for your family.

Send us your bundle this week and see for yourself. Our representative will call.
