## PLAN SCOUT BUDGET

General Committee of North Shore Area Council to Hold Conference Tuesday, September 27

A meeting of the finance chairmen of the various town Boy Scout committees has been called by General Finance Chairman Henry Fowler, for Tuesday evening, September 27. At this meeting final plans for the raising of the annual budget of the North Shore Area council will be worked out. The general procedure will be as last year, each town organizing its committee to raise its share of the general fund.

The money raised is used in the following items in the council budget: salary of Scout executive, assistant executive and clerical help; traveling expense in going from town to town, in visiting troops, conferring with heads of institutions sponsoring troops, and with committeemen; office rent, light, telephone, etc.; office equipment, files, etc.; office supplies, stationery, printing, forms, etc.; equipment for hikes and camping such as stove for "the Cabin in the Woods," cots, etc., cooking utensils, etc.; in training courses for Scout leaders, notebooks, printed matter, books, etc.; for rallies, trophies, field day, etc.; for educational publicity, used in keeping the public and Scout parents particularly in touch with Scouting aims and progress, quarterly reports to "stockholders" or contributors to the Scout work. These and other items are included in the year's budget as drawn up by the committee on finance and budget.

Scouting has almost doubled in numbers during the past year in the area served by the North Shore Area council, thus making desirable a larger budget for a growing service, it is explained.
