

HOW long would you patronize a druggist who shopped for a bargain price on drugs with which to fill a prescription for your health? Yet many dealers in ice cream—one of the greatest foods known—brag about the fact that they can sell you any grade of ice cream that they care to buy.

HYDROX Agents pay the price of quality and purity in order to protect you. Certainly when a dealer is protecting you he is worthy of the reward of your patronage.
