Teacher of Dance

Florence Webb, who has recently taken a home at 527 Chestnut street, Winnetka, announces the opening of her school of dancing at the Winnetka Woman's club on Wednesday, October 12.

Classes for adults are to be held every Wednesday evening during the winter season, beginning at 8:30 o'clock, while classes for children are scheduled for every Saturday morning at 10:30. The children's classes will begin Saturday, October 15.

Miss Webb's school of dancing was established in Regent street, London, in 1911 and has achieved a notable success in the world metropolis. Miss Webb is one of the few really well-known London teachers of dancing and possesses the distinction of having instructed some of the outstanding English stage stars. She was selected some time ago to coach Dorothy Gish in her dancing in connection with the famous motion picture, "Nell Gwynne," done in England and in which Miss Gish had the title role. Miss Webb appeared with Diaghileff's Russian ballet.

The dancing classes will include instruction in both stage, ballet, and social dancing, it is explained.

Among the Kenilworth students departing for college last week were Clifton Osgood, who went to Exeter; Gilbert Osgood, John Robert Murray, Phillip and David Burnham, and Jack Rathbone, to Princeton; Roswell Coyne to Westminster, Mark Cresap to Hill, and Walter Marx to Williams.

Let us help you in entering upon the considerations that will precede the actual selection of the North Shore home you will eventually buy.

RADIO SHOW OCT. 10

Marvelous Scientific Devices to Be Demonstrated for First Time at Chicago Exposition

The latest developments in radio receiving sets, speakers and power units backed up by a display of the most recent and sensational discoveries in the use of wireless from the laboratories of the General Electric and Westinghouse companies will be shown when the sixth annual Chicago Radio Show is held in the Chicago Coliseum from October 10 to 16. The show will be open to the public every afternoon and evening.

A piece of steel suspended in the air by magnetic repulsion, a tube so sensitive that a puff of smoke causes it to operate a fire alarm, another tube that will pick up the energy from a human hand passed over it and build up this energy sufficiently to start an electric motor, will be in the "Theater of Wireless Wonders."

The atom will be heard and seen and even measured by the scientific devices on display at the Chicago show this year. The oscillations of a wireless wave will be made visible to the naked eye by another scientific discovery.

The Cathode tube, developer of the mysterious "deathray," will be demonstrated for the first time in public. More than twenty scientific demonstrations, so startling as to be almost beyond human belief, will be exhibited twice each day at the show.

A feature of the display of up-to-the-minute radio sets will be the large number which are now equipped to operate directly from the light socket. Engineers have now solved this problem which for a time appeared to defy solution. The new AC tubes of different types will be shown as integral parts of many new models of standard radio receiving sets.

The amateur set building contest promises to break all records for the number of entries. Dealers report a boom in home set building and this is reflected in the many entries being received for the contest. Cash prizes will be awarded in each of six divisions of the contest and a silver trophy will go to the constructor exhibiting the best home-made set in the show. Entry blanks can be obtained at the Radio Show office at 127 North Dearborn street.

The Neighbors will open the season of 1927-28 with a reception to the new members of the club at 2:30 o'clock next Tuesday afternoon. The reception will be followed by a musicale given by Mme. Ella Spravka and Mrs. Gilbert Smith.

McLean county, having 707,262 acres under cultivation, has the largest farming area of Illinois' 102 counties. Iroquois county is second with 670,957 acres in farm lands.

Mrs. Arthur Ruf, 236 Cumnor road, Kenilworth, entertained at luncheon last week in honor of Miss Teresa Neuberger, who is the guest of her sister, Mrs. Walter Shattuck.
