

## YOUR BROKER

should be one who can advise you, and with whom you can consult in all matters pertaining to the purchase of property, whether for a home, an investment or a speculation.

We have specialized in properties lying west of the North Shore during the activity and growth of that section and are well informed of present safe and attractive purchases of country homes and acres.

Lying west of Wilmette and Winnetka, we have 300 acres, nearly one-half attractively wooded and in an ideal location for an exclusive club. The adjoining Des Plaines River Forest Preserve offers unlimited opportunities for the equestrian with its miles of shaded bridle paths.

We also offer several attractive homesites, from one to fifteen acres, in the country club district east of Glenview, in a restricted neighborhood.
