If a Fruit or Vegetable It Can Be Found Here

We have been in business in Wilmette for fifteen years. During these years it has been our constant aim to supply our ever increasing number of patrons, extending from Evanston to Highland Park, with the best fruits and vegetables that the market affords. We feel that we have succeeded in this policy to the point of setting a standard of quality and service. By frequent purchases and daily resorting we maintain this perpetual standard.

We are centrally located in the heart of the Wilmette shopping district. We have developed a prompt and efficient telephone order department service for the convenience of our customers. Such orders receive prompt delivery.

Each week, in this paper we intend to publish a buyer's guide. Watch for it, as we know that you will be interested in these weekly announcements.
