

# The New Electrola Radiola

Two superb instruments, each having pre-eminence in its respective field—not merely combined, but unified in a cabinet of superlative beauty. With this instrument you may range the entire world of recorded and transmitted sound, selecting from it what you will of the music of the moment or of the ages.

The Radiola Super-Heterodyne, unquestionably the finest Radio yet developed, is an integral part of the instrument.

The Electrola places in your hands the power to call forth precisely at the moment your mood dictates, the supreme efforts of the greatest musical artists of this generation.

## Public Forum

Editor, WINNETKA TALK:

In the past year the Tri-ship Boy's club of New Trier has organized an employment bureau with the view of helping students to earn their own living while going to school.

We have been fortunate in locating a large number of boys, in places along the north shore, and hope to increase our work this year.

In order to do this, we are asking your readers to notify us of any positions left vacant in their businesses. We will be in a position to give the best kind of help and will, at the same time, be giving a boost to fellows who otherwise would not be able to go on with high school.

We will appreciate any aid which you will be able to give us and will try to do our part in carrying on this work.

Yours very sincerely,  
Tri-Ship Club Employment Service,  
Preston Read, chairman.

## English Girls Like Their Bobs and Athletic Games

The New Trier Girls' club was entertained in an assembly Friday, October 21, by a talk on school life in England by Miss Bell, the teacher from a school in England, with whom Miss Wright of New Trier has exchanged for a year. Miss Bell proved herself to be a very interesting speaker. She told of the various kinds of schools in England, some of the differences from our schools here, and some of the similarities. Miss Bell said several striking things. She utterly shattered the popular notion that all English girls are letting their hair grow. According to Miss Bell, almost all of them wear their hair short. They do not drive cars or play bridge which, in the expression of the American girl, they would term as dumb.
