
IF—

WESTMOOR TRAIL
—in Winnetka

appeals to you, you may be mighty sure it likewise appeals to many others, who have long sought a desirable location for a fine home at anything like a reasonable price.

This tract is not platted into lots of a definite fixed size, which permits one to acquire a frontage of the size desired. It is possible that it may be sold in three or four plots, but not more than seven. Thus it is easily conceivable that there will be many more applications for plots than there will be plots available. Desirability of applicants will be a prime factor and undoubtedly there will be many applicants considered equally desirable as neighbors, so among those, the order in which their applications are received will be taken into account.

If then, this does appeal to you, and you have the vision to see and the ability to quickly decide, if you want to buy not as a speculation, but for the purpose of building a home, and therefore are prepared and willing to make a substantial payment on the property you may select, the sooner you see this, the greater chance you will have of acquiring one of the beautiful homesites in Westmoor Trail.

I shall be glad to meet you on the property from dawn to dusk until this property is sold, or I shall be glad to make an appointment to see you at your convenience.

GLEN C. BULL
