SELECT TALENT FOR NEW TRIER'S DRAMA

High School Dramatic Club Rehearses "Inside the Lines," Story of War Intrigue

By M. B.

As their autumn production for the 1927-28 season, to be given Saturday, November 19, the New Trier Dramatic club will present Earl Derr Biggers' play, "Inside the Lines." Amusing comedy and more serious acting are blended in this piece to make it a splendid opportunity for high school students to show their ability.

As its title implies, "Inside the Lines," is a story of international intrigue and scheming at a time shortly after the outbreak of the World war in 1914. The picturesque Rock of Gibraltar is the scene of such a plot, in which the governor general of Gibraltar, British officers, spies, secret service agents and a Hindu servant are involved, as well as a group of worthy citizens from Kewanee, Ill., and an American girl from New York.

Has Fine Experience

The masculine lead is being taken by John Iliff, a senior, who will be remembered for his capable work last year as the lead in "The Ghost Story," presented at the Girls' club bazaar, and for minor roles in "A Thousand Years Ago," and "Icebound." With this previous experience, there is reason to expect a smooth performance in his portrayal of Captain Woodhouse.

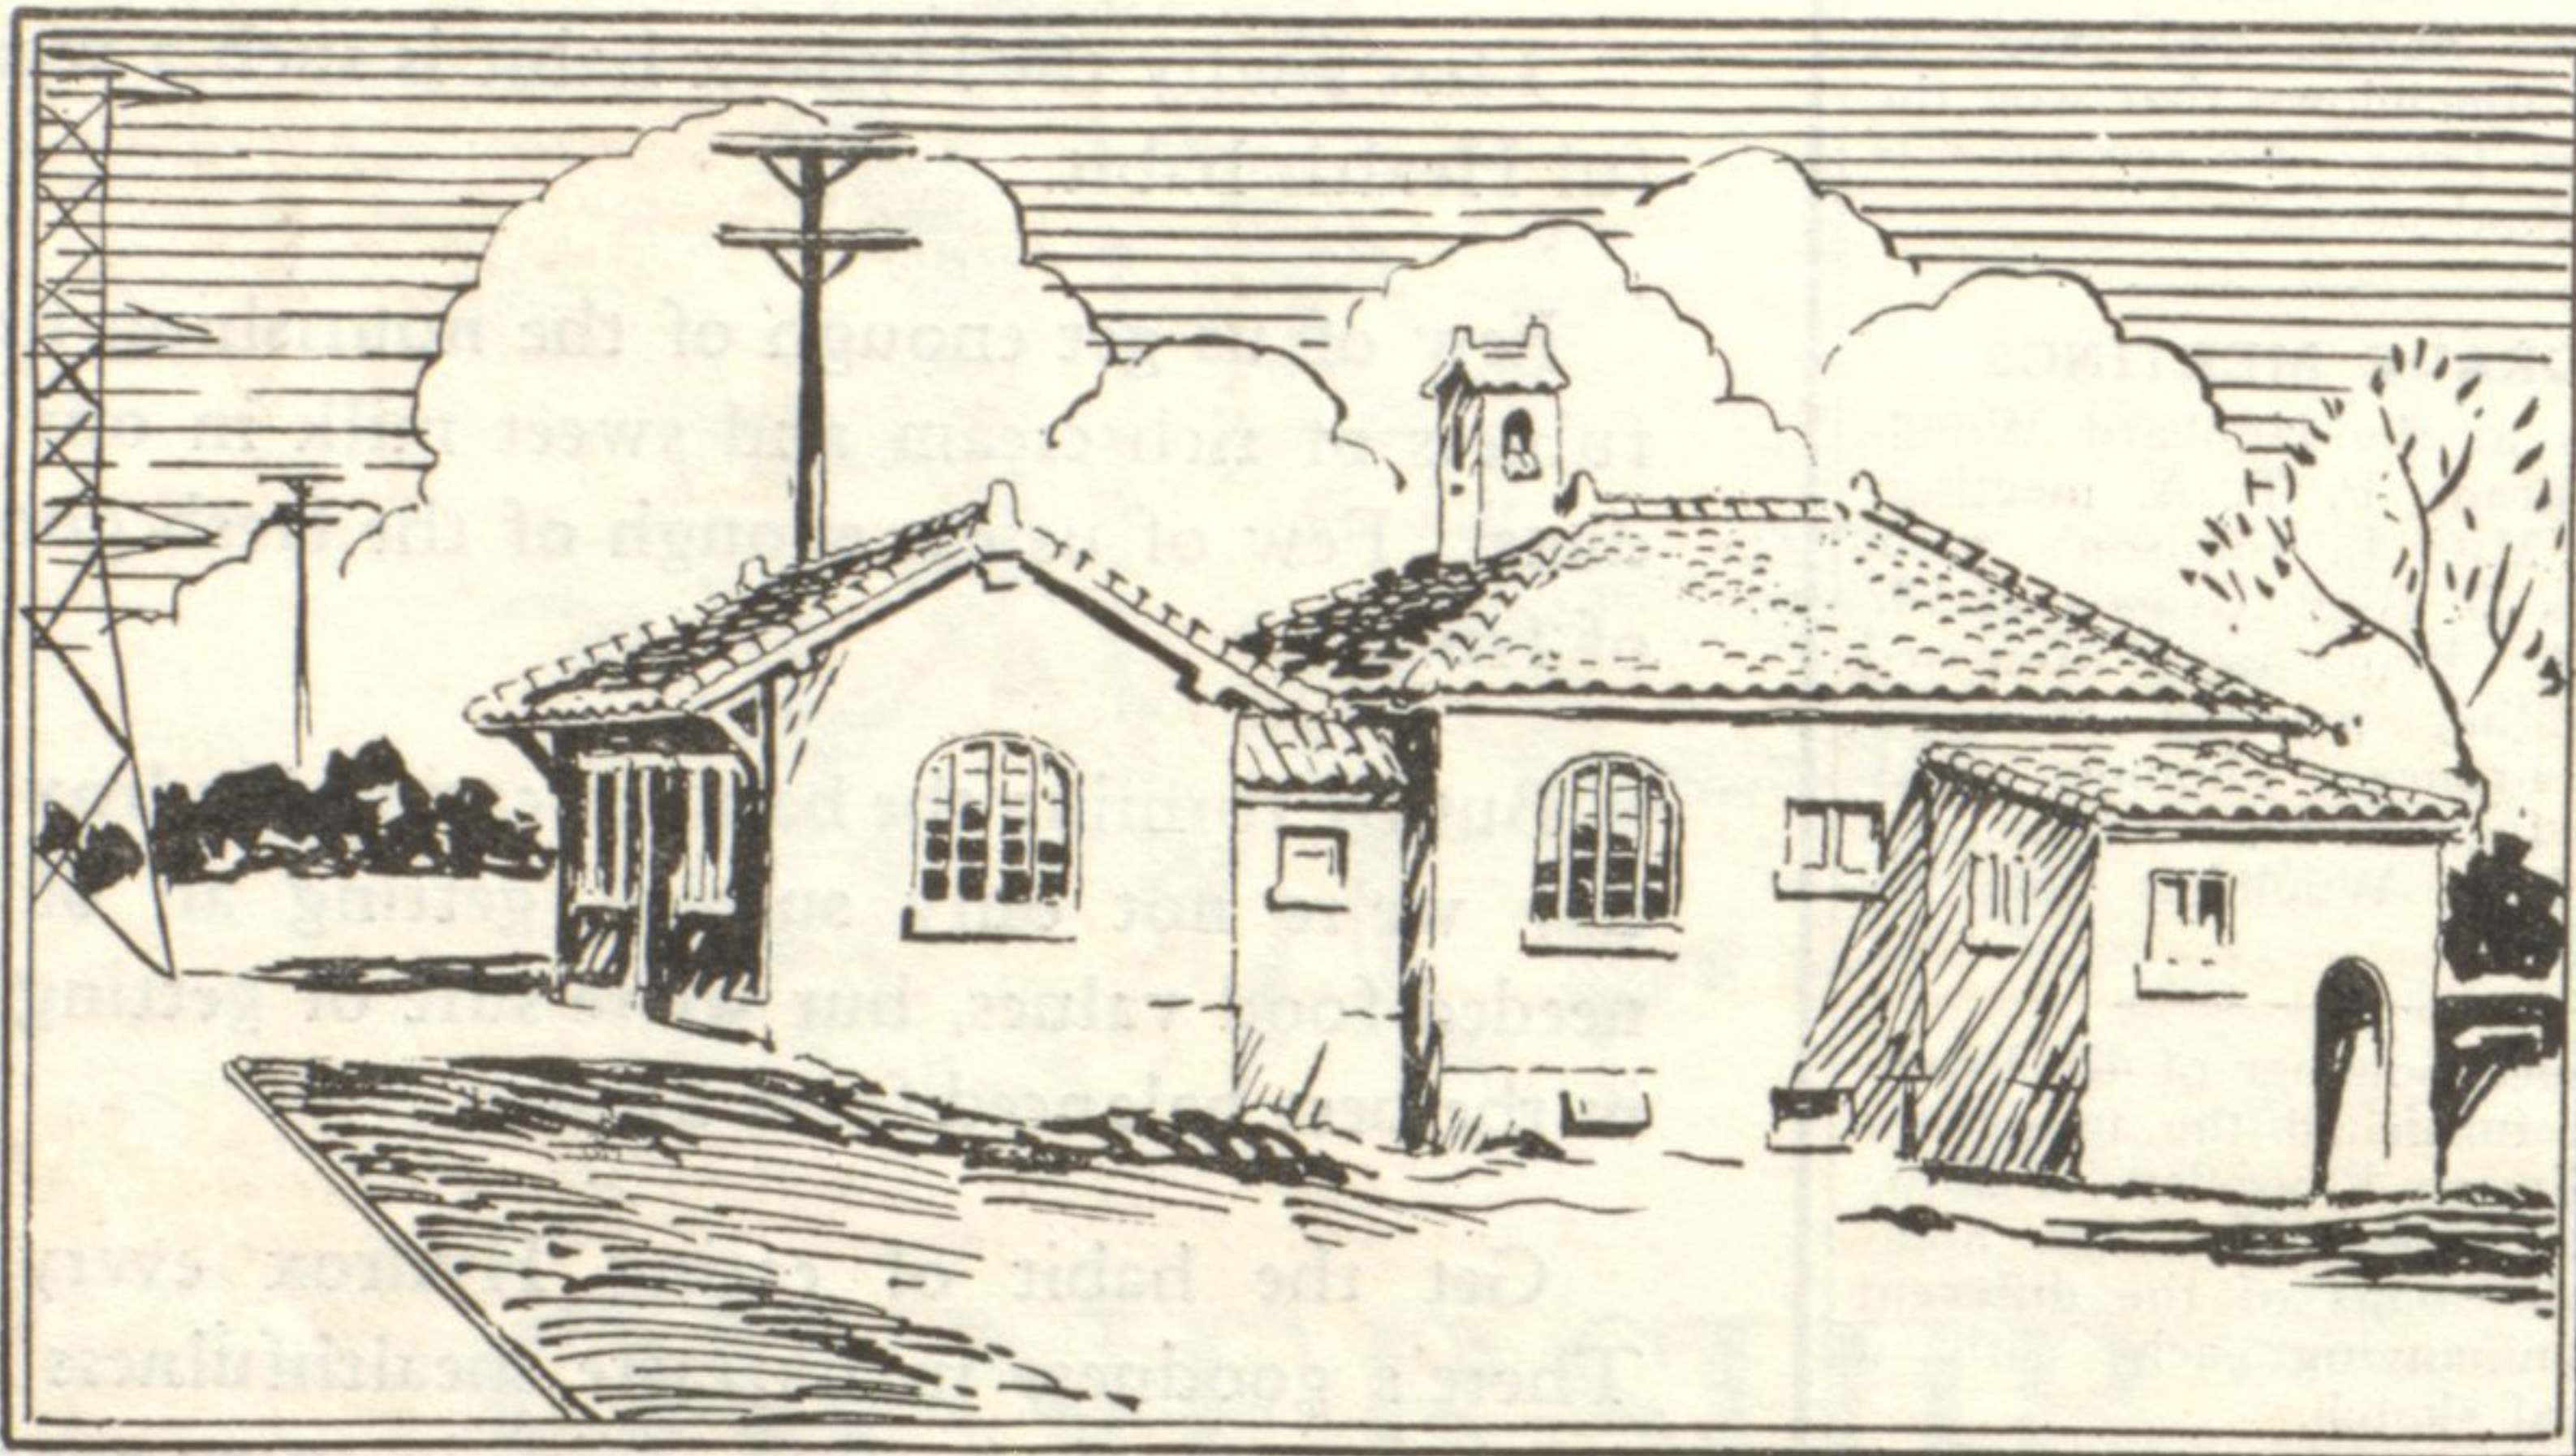

Jean Marx, also a senior, is to be cast as Miss Jane Gerson, the feminine lead. Her experience has been limited to a single play during her early high school career at Country Day school, from which she came to New Trier a year ago. With so important a part, it will be interesting to follow her work.

The "Own Your Own Home Bureau" has recently been opened by a group of Utility and Electric Railway Companies, including the North Shore Line. The Bureau is permanently located at 72 West Adams Street, Chicago, and is prepared to give valuable assistance to the prospective buyer or builder of a home within the Chicago Metropolitan Area. The Bureau has nothing to sell, nor is it concerned with any particular section of the Metropolitan Area. To anyone interested in owning a home, the Bureau will give valuable free information on the territory, home planning, financing, location, cost of homes in relation to income, etc. Every home-seeker is invited to use this free service.

Forerunners of Tomorrow's Skokie Valley

REALIZING the character of homes that would come to the beautiful Skokie Valley in the wake of adequate transportation, the North Shore Line, when constructing its new Skokie Valley Route, spent a large sum of money to build attractive stations of approved Spanish architecture.

Nine stations, similar to the one pictured above, are located conveniently along the Skokie Valley Route. They are forerunners of the splendid home development which has already made itself evident along the Skokie Valley.

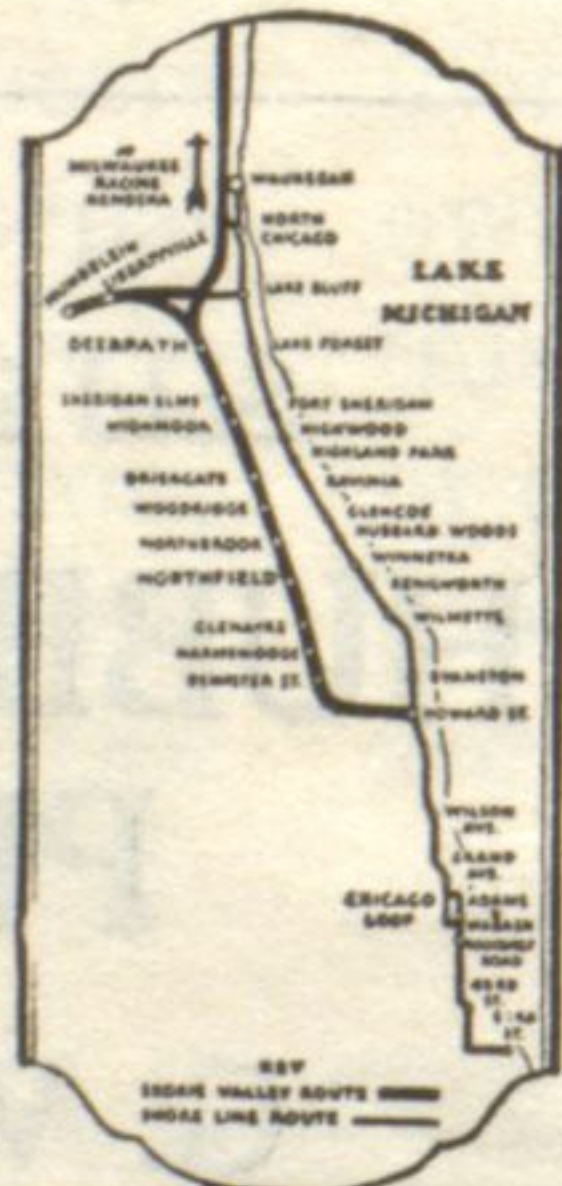

It was logical that this development should follow transportation. For

the Skokie Valley—a section greatly favored by Nature—is the natural locality for the continued, uncrowded growth of the North Shore. Many sections of the Skokie Valley already afford all home conveniences—sewer, water, electricity, gas, telephone, paving. If you have friends

who wish to live on the North Shore, tell them about "the newer North Shore," the picturesque Skokie Valley and its excellent electrically-operated high-speed transportation service.

Chicago North Shore and Milwaukee Railroad Co. The Road of Service

There are more golf clubs adjacent to the North Shore Line Skokie Valley Route than along any other rail route of equal length in the world!

C. H. English Classes Arrange Social Evening

The English classes for foreigners are to enjoy a social time Monday evening, November 7, when they meet with the "Good Luck" club after the class hour and stage a special program, followed by refreshments in the Camp Fire Room of Community House.

The "Good Luck" club is an outgrowth of last year's English classes and meets every Monday evening for a regular program and social time. This is the first general meeting of the English classes as a unit-group, and it is planned to have others later during the winter. Miss Livia Youngquist of the Horace Mann school has general charge of the program. There will be music, readings, and games, as well as a talk by E. A. Rohrbach on his recent trip abroad, and one by Seymour Olmsted on some phases of American life.

Lawrence Snell of Honolulu is a guest at the home of his cousins, Mr. and Mrs. Charles Sommer of 425 Provident avenue.
