Any Motor Will Run Better with a Pines Automatic **WINTERFRONT**

The "WINTERFRONT" is a simple and extremely effective device and represents to the automobile in cold weather what an overcoat represents to you. Gives driving comfort by keeping air under hood warm, preventing cold from entering driving compartment.

The "WINTERFRONT" has a beautiful baked enamel finish, and improves appearance of any car. Easy to keep clean.

The "WINTERFRONT" can be had for practically all makes of automobiles having a flat front radiator. Can be attached by anyone in less than five minutes.

The "WINTERFRONT" completely covers and protects the Radiator while it is cold, but automatically opens after radiator temperature has passed 130°F.

Shuts out the cold and holds the warmth. Gives summer running conditions under hood at all times.

Increases mileage on gasoline by allowing you to run motor on summer adjustment of carburetor.
