### Beautiful 18-Hole Golf Course

DECEMBER 1, 1927

The discriminating golfer who winters in Florida, enjoying her unsurpassed climate, will have his golf enthusiasm stimulated and find his every expectation more than fulfilled in this beautiful, sporty and well-conditioned golf course.

The construction of the Holly Hill golf course embodies the most advanced features of modern golf course design and it compares favorably with the finest in the country.

From the time you tee off and until you are down on the 18th green, there is an ever-changing panorama of unusual scenic beauty, sporty fairways and keen greens.

For the past several years, when nine holes were in play, member-golfers of the Briergate, Beverly, Bunker Hill, Delavan, Edgewater, Evanston, Glen View, Glencoe,

Illinois, Jackson Park, Knollwood, La Grange, Lakeside at Manitowoc, Maywood, North Shore, Oak Park, Riverside, Skokie and Westmoreland golf and country clubs in the Chicago district were here. Ask them! They were enthusiastic after pitting their skill against the hazards and sportiness of the Holly Hill golf course. Many claimed it was one of the finest golf courses on which they had ever played. The 18 hole course now embodies 12 entirely new holes with 6 of the first nine. There is nothing like it. Come and see.

The HOLLY HILL INN at Davenport, Florida, pictured above, is an ideal place to make your home and headquarters while enjoying Florida's incomparable climate and the Holly Hill golf course.
