**GIVE YOUR MOTOR THE PROTECTION
 THAT YOU WOULD GIVE YOURSELF.**

A WINTERFRONT

will supply this protection. You have, probably, already prepared for winter by doning extra clothing. Don't you think your car should also have this extra protection against cold weather? This added protection may be had by installing a Pines Automatic Winterfront.

"Winterfront" is completely automatic, thereby doing away with the necessity of getting out of your car on cold days to open the shutters. This is in accordance with the principle of making everything as simple and as convenient as possible.

The "Winterfront" will not only care for your motor, but also, add to the appearance of your car. Pines Winterfront will not add to the trouble of keeping your car clean as it is easily cleaned.

The "Winterfront" can be had for practically all makes of automobiles having a flat front radiator. Can be installed by anyone in less than five minutes.
