

A GAS APPLIANCE GIFT FOR YOUR HOME

For Real Christmas Joy

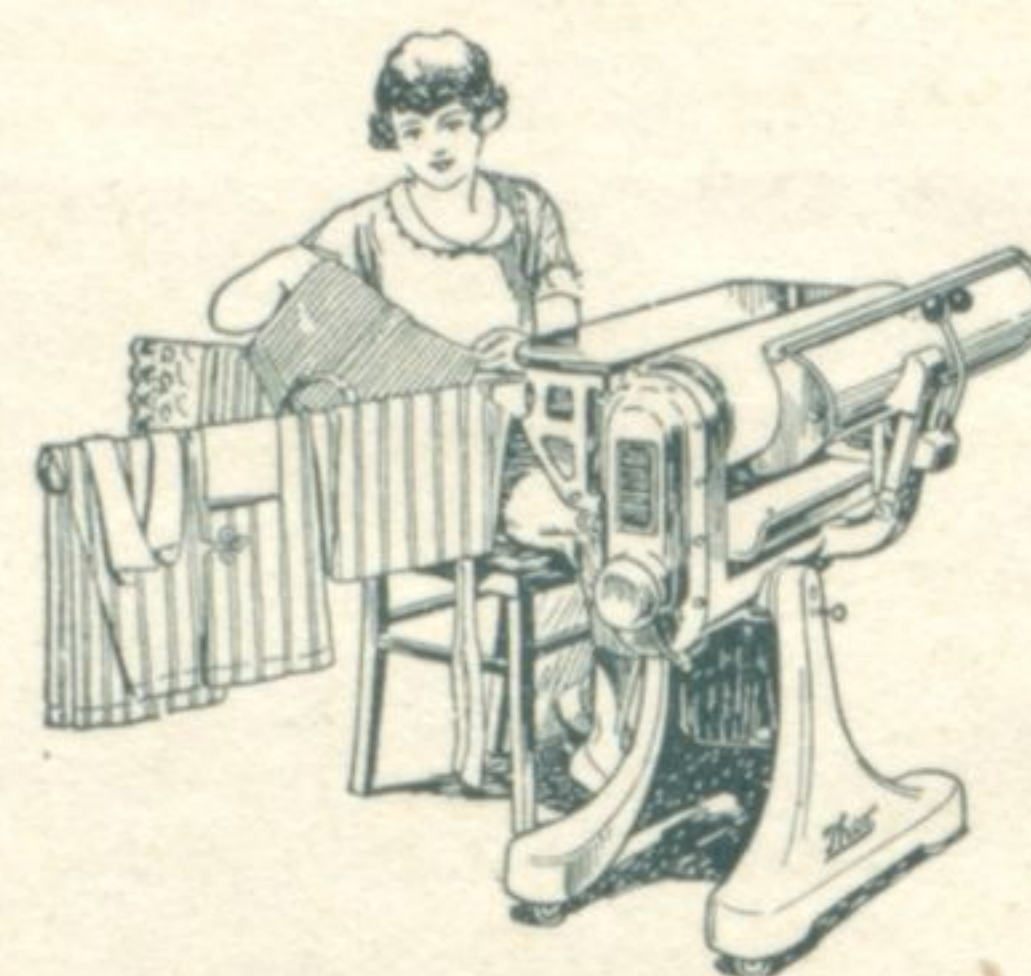

and happiness for years to come—get a modern heat regulated gas range. This kitchen appliance not only save time for you but will eliminate every element of chance that cannot help but be present when you depend on guess work to determine the heat of your oven.

With an up-to-date gas range at your service, you may place an entire meal in the oven, set the heat control, light the burner, and go away for the entire afternoon knowing when you return everything will be cooked perfectly.

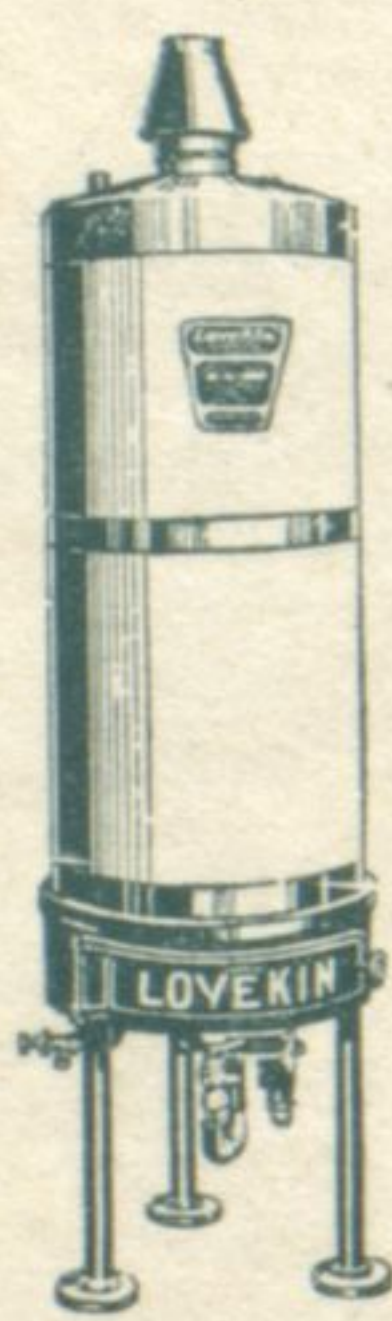

Yuletide Cheer

will be enjoyed by your entire family before the cheery glow of a Radiantfire—which gives instant heat. One of the real joys of the Radiantfire is its absolute lack of dirt or grime of any kind. Nothing to clean up after using it. No smoke or soot to blacken walls or woodwork. And you experience unexcelled contentment when you sit in front of a Radiantfire.

Don't Stand to Iron

With a Thor Gas Heated Ironer you can sit comfortably on a bench and let the ironer do the work for you. Several hours work with an old hand iron may be completed in a fraction of that time with this modern laundry appliance. The Thor not only will save you time, but it will give a finish and touch of perfection to your clothes that cannot be achieved with a hand iron.

The Entire Family

will know the delight of plenty of hot water at all times if you install an Automatic Storage Gas Water Heater in your home.

This heater has a ready supply of water, heated to the right temperature, for the bath-kitchen-laundry—or any other need.

There is no substitute for instant hot water obtained economically. Water coils heated by coal require a furnace fire and consume heat that makes your coal pile dwindle too rapidly.

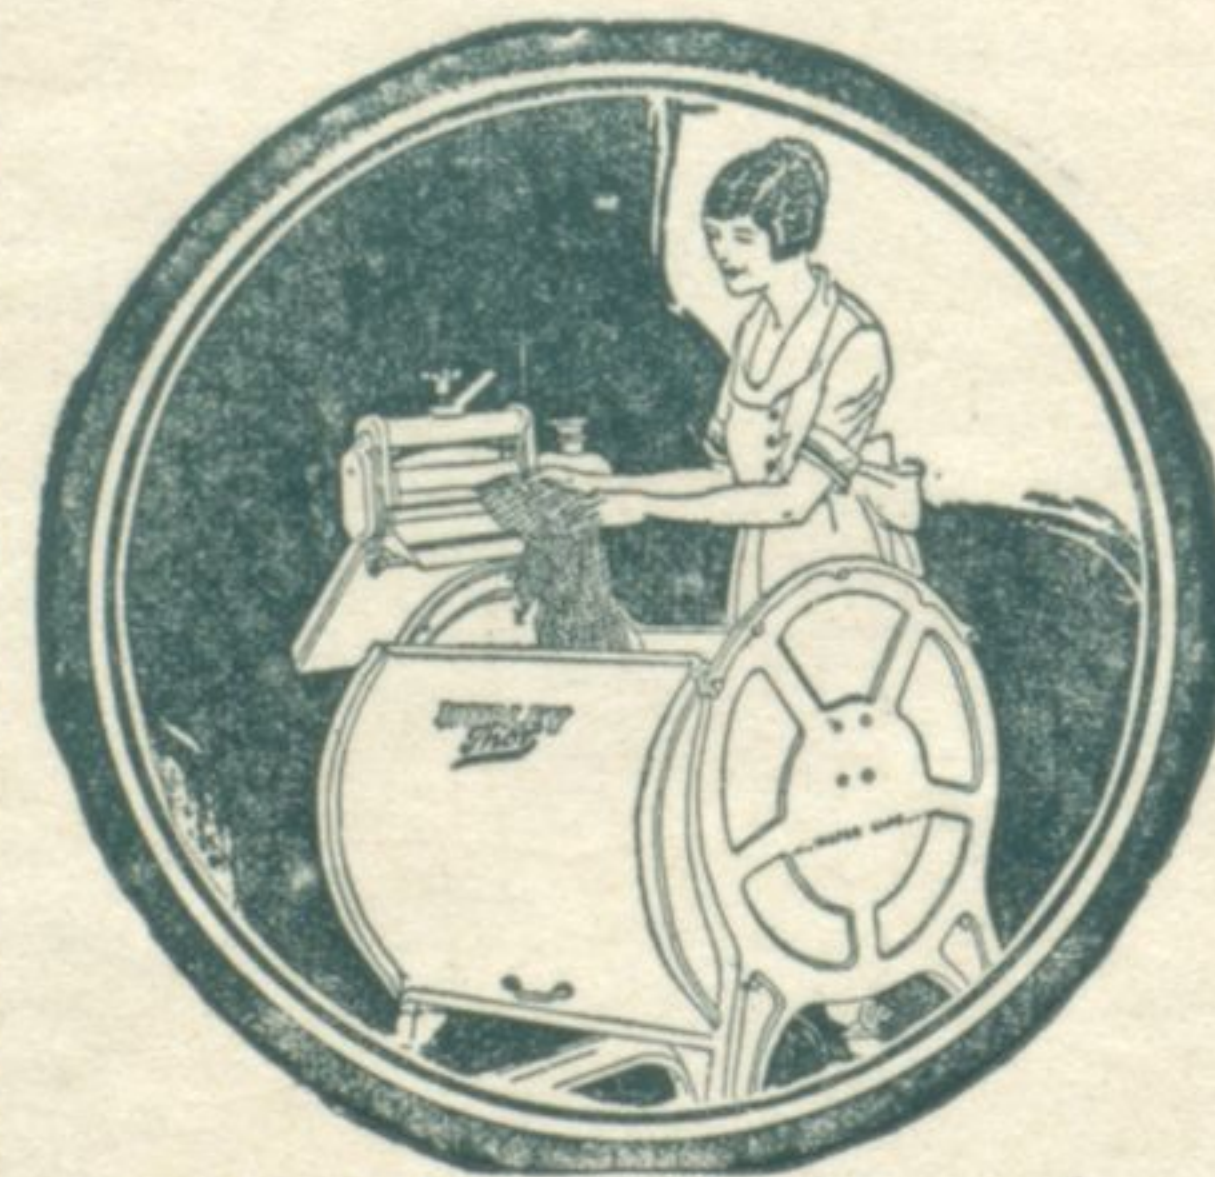

This automatic storage gas water heater needs no attention whatsoever, and it is ready at all times to send a stream of clean hot water through the faucets in your home.

Make Washday Easy

Washday can be made a long, drawn out time of drudgery—of wasted hours—or, in distinct contrast, be completed easily and quickly.

One laundry appliance that aids in finishing the washing in the least possible time is a THOR Washing Machine. This appliance does the work in an hour that requires almost an entire day with old-style methods.

Make an hour count for more with a Thor Washer.
