### Mothers of Cub Scouts Guests of Troop at Meeting

Members of the Cub Scout troop, sponsored by the club Vista del Lago, held a "sweetheart" meeting at Teatro del Lago, where the troop is meeting during the winter months, last Saturday morning. Over 50 mothers of boys enrolled in the organization were present and viewed the program which was participated in by the 73 members of the troop and in the course of which two silk flags were presented to the organization and eight "cubs" received medals for excellence in honor and athletics.

Louis C. Simmel, executive secretary of Vista del Lago and director of the troop, presided over the program. A large silk American flag was presented to the boys by Samuel Meyer, manager of Teatro del Lago, as a gift from the theater, and a silk troop flag, featuring the colors red and green in a design conceived by Mrs. Howard Lind, godmother of the troop, was presented to them by Howard J. Cunningham.

The medals were awarded to the following boys: Jervese Barnhill, Teddy Lendt, Andrew Russo, Billy Crawford, Louis Simmel, Jr., Roger Crowe, Foster Gilgiff, and Carleton Ross.

The troop is said to be the largest in the United States for its age, having at the age of 10 months an enrollment of 73 members.

## Crisp Night and a pair of JOHNSONS —there's a thrill!

There'll be many a night this winter when the great outdoors will call you—when the fresh, clean air and starry sky will say "Come skating!"

And how much greater the thrill will be if you have a pair of genuine JOHNSONS to skate on.

JOHNSONS—the choice of young and old. JOHNSONS—the skates of champions.

NESTOR JOHNSON made America's first tubular skates, the very first pair. He made the only really important change in centuries of skate

making. From the old flat steel or solid type skate to the ALL STEEL, FULL TUBULAR skate.

You want the original and genuine JOHNSONS. Look for the full name, NESTOR JOHNSON, on the skates before you buy.

JOHNSONS are made in Hockey and Racer styles for boys and girls, men and women. Hockeys for general skating—a real help to the beginner and a joy to the expert. Racers for speed skating—"they go like lightning."
