

### Health Officers to Co-operate on Hospitalization

As a result of the recent lack of uniform method of procedure in the transfer of contagious disease cases from the district west and north of Evanston to Evanston hospitals, errors and misunderstandings in the registration of such cases frequently occur, according to a letter which Dr. John W. H. Pollard, Commissioner of Health of Evanston has sent to north shore physicians.

Dr. Pollard further states, "The cases are often erroneously allocated and the local health officers involved are handicapped in their endeavors to properly trace contacts.

"In order to correct this situation, the Department of Health of the City of Evanston will, from this date, enforce the Illinois State Department of Public Health's regulations relative to the transfer of cases of contagious diseases from one health jurisdiction to another.

"Superintendents of both Evanston hospitals will be requested not to admit contagious disease patients from foreign health jurisdictions, except upon permission from the Evanston Commissioner of Health."

Dr. H. A. Orvis, health officer of Winnetka and Kenilworth, has taken up this matter with north shore physicians, and through a group organization known as the North Shore Health Officers' association, is getting full cooperation in the matter of carrying out the foregoing regulations.

Dr. Orvis submitted a brief report to the Winnetka village council Tuesday evening, on the foregoing plans.
