

### Country Day Boys Hear Harvard Football Coach

Boys of the North Shore Country Day school enjoyed a talk Thursday of last week by Arnold Horween, Harvard University football coach. His subject was "Foot Ball," and his talk was illustrated with stereopticon views of games of the past season.

Misses Janet and Doris Mayhercy of 108 Third street have returned home from the Norwegian Deaconess hospital in Chicago, where they were operated upon for the removal of tonsils.

### Dodge Brothers' Victory Six Makes History

This is the Victory Six brougham. It is one of the new Dodge Brothers sixes which are making automobile history because of their unit construction of body and chassis and because of their double wall of steel in body construction.

William Cowen of 120 Bertling lane entertained a few men at his home on Monday evening, January 23, in honor of the return of Max Woldenberg from a stay of several months in Arizona.

### Electric Vulcanizing Best Process Says R. B. Johnson

"There is a vast difference between the ordinary 'cold patch' and a patch job by our electric vulcanizing process," R. B. Johnson explained in demonstrating the new electric tube vulcanizer which has recently been installed at the garage of the Johnson Motor Service, 806 Oak street, Winnetka.

The cold patch, he explained, is unlike the patches put on by the electric vulcanizing process, in that the latter becomes a part of the tube itself and will not come off.

Mr. Johnson said that within the next week, he expects also to have installed the latest machinery for quick tire changing work.
