SAVAGE Washers and Ironers

Washer and Dryer
“Spin-Rinse, Spin Dry”

The Savage Washes Everything

In the wringerless Savage you can wash and dry every-
thing at home,—fine, delicate things, such as lace and
embroidered articles, filmy lingerie, or heavy, cumber-
some articles, such as stuffed comforters, feather pillows,
woolen blankets, bath-mats, rag-rugs, bulky portieres.

One of the Savage's greatest assets is that, although it
washes and rinses so quickly and thoroughly, the
original fluffiness of every article remains after spin-dry-
ing. This is one of the extra benefits of eliminating
the wringer. Everything, whether fine linen or rough,
bulky material comes out with the life and freshness it
had when new.

The Better Way
for Ironing Day

Instantaneous Control Means Restful Ironing

The Savage Washer & Dryer established a precedent
for eliminating laborious “hand” work, such as “feed-
ing” a wringer, “hand” rinse, and the like. Now comes
the Savage All-Electric Ironer with its easy, instantane-
ous “touch” control leaving hands and mind free and
at ease. It makes for genuinely restful ironing. Just
a slight pressure of either forearm, finger, or elbow
downward upon the control feedboard and the shoe is
automatically brought in contact with the roll, ready
for ironing. Another slight pressure and the shoe is
released.

*Only the Savage has this complete, instantaneous control
—The most important feature for rapid, restful ironing.*
