

A New Home Permanently Protected

This picture does not do justice to this very attractive residence. The superior quality of construction, the charming interior, and many little conveniences and latest improvements do not show in the above cut.

FIRST FLOOR—Contains a center hall, with imported English tile floor, running clear through to a garden entrance, large living room with stone fireplace, large heated sun room or porch with tiled floor opening off of the living room, lavatory and toilet off of center hall, large dining room with three exposures, breakfast room, butler's pantry with glazed built-in cases, kitchen with built-in cases and Ilg ventilating fan, rear service entry and door to heated motor car room, also service stairway to two maids' rooms and bath on second floor over motor room. A feature of the entrance hall is the open stairway with wrought iron continuous rail, lighted by large leaded glass window.

SECOND FLOOR—Contains 4 master bedrooms with 2 complete colored tile bath rooms, large closets, and stairs to attic storage space. Maids' quarters connect with owner's quarters through child's bedroom.

BASEMENT—Is complete in every detail and is equipped with large laundry, automatic heater for domestic hot water. Separate boiler room with American Radiator hot water boiler equipped with Aetna oil burner. One thousand gallon underground oil tank and service pipe installed in front of house.

This residence is of English design and of brick and stucco construction with stone entrance porch and walk, concrete driveway and service walks. The slate roof is of the best quality. All exterior metalwork is heavy copper. The lot is 100x165 feet, fronting East on Eastwood Road in McGuire & Orr's Skokie Heights restricted development.
