

# A Homesite is More Than a Vacant Lot

As you drive from Highland Park to Glencoe, and on through Winnetka and Wilmette, you not only feel that each community has its own personality, but that even no two streets are alike. The variation of shrubbery, the size and placing of trees, the topography, the difference in neighborhoods, gives each home its individuality.

Planning to build a North Shore home? Look over this partial list of choice vacant property now available.

### BEACH RIGHTS.

Heavily wooded and bordered by a beautiful ravine. 200x150 ft. on a private road. Permanent view of the Lake, with an easement to a wide sandy beach. Surrounded by wooded estates. Price \$35,000.

### KENILWORTH SACRIFICE.

100x175 ft. corner in the desirable east side of Kenilworth. Has mammoth forest trees, beautifully landscaped with shrubs and thousands of bulbs and perennials. Unusually low price of \$15,000.

There are hardly any two pieces of vacant property on the North Shore that are similar in appearance. And it is in locating those precisely adapted to the home owners' needs that Quinlan & Tyson service excels.

With many styles of architecture available, and a choice of distinctive settings, the North Shore resident can truly feel that "there is no place like home."

Among the sites now on the market, you can undoubtedly find one just suited to the house plans you have in mind. This firm's complete coverage of the North Shore suggests it as the logical agency to assist you in finding a suitable location.

*Some especially choice sites are shown above, but there are more on the lists in our offices. Come in and look them over. Then let us drive you out, when convenient, to inspect the property.*
