

# No question about it!

*Electric Dishwashing is now Practical for Home Kitchens*

In house or apartment—for large and small families—the new Portable Model AA CONOVER has proved electric dishwashing practical.

## Practical

And with all its advantages, the CONOVER is within the means of the most modest of budgets—for it requires no new sink, no new plumbing! It fills from the faucet and empties into the sink.

There's no question about it! The CONOVER will prove that electric dishwashing is practical for you too. See it in operation at Lord's.

## Sanitary

The reason is simple. In addition to saving time and work, and keeping the hands out of dishwater, it washes the dishes immaculately clean. A few simple operations, a few minutes, and all the dishes from an average meal come out clean, sparkling, hot and dry—a delight to the eye and to the touch.
