

3,000 N. S. RESIDENTS TO PACK EVANSTON GYM

Hold Township-wide New Trier "Party" This Saturday; Splendid Program Arranged

More than 3,000 residents of New Trier township will be in evidence at Beardsley gymnasium of the Evanston High school this Saturday night when a "township wide party" will be staged under the auspices of the athletic department of New Trier High school. Proceeds from the event which is to be the largest of its kind ever staged locally, will be used in furnishing the boys' club room in the new school gymnasium and in purchasing a large bust of Col. Charles A. Lindbergh which is to be mounted in the gymnasium.

Arrange Big Program

A program of unusual proportions has been arranged for the event, ranging from a basketball game with Stivers High school of Dayton, Ohio, to a musicale in which the entire New Trier chorus, two glee clubs and choir will be presented in a grand ensemble under the leadership of Mrs. Marion Cotton. The New Trier band of 100 pieces, directed by J. C. Schumacher, will play throughout the entire evening's performance and the 3 boys' leaders corps will give a demonstration of acrobatics and gym stunts. The girls' leaders corps will present a specialty dance number.

Stivers high school holds the best record of any school in the state of Ohio for a period of 10 years. Its teams have won 239 games and lost only 39 in 14 years; have won 5 state championships since 1914; have been runner-up twice and in the semi-finals twice. At the close of the season last year a sports editor of one of the Dayton newspapers presented data to prove that only one team in the entire United States, Passaic, N. J., has a better record than Stivers.

Present Best Line-up

While the Stivers team this year has been somewhat handicapped by injuries, it has, nevertheless, won 14 games in contrast to 4 lost and scored 421 points to its opponents' 284. In the tilt with local basketiers Saturday night, Capt. Bob Lively and Bill Hoskett, both forwards and Stivers' strongest scoring men, will be back in the line-up. Thus this part of the program will undoubtedly be one of the best exhibitions of basketball witnessed on a local floor for several years.

The affair has been slated for Beardsley gym because of its large capacity. It is anticipated that the crowd will fill it to capacity, which, if this occurs, will be the first time since it was built.

With the completion of New Trier's new gymnasium it will be possible to hold such a program at the local school and plans are now being formulated to make this event, embracing almost every extra-curricular activity, an annual event in which the entire township will participate.

Charge 47 Prices for Gasoline, Report Shows

Forty-seven different prices are charged for gasoline throughout the United States, the Chicago Motor club has been advised by the American Automobile association which recently conducted a survey, through its affiliated organizations, to determine the various motor fuel costs. The lowest figure for straight run gasoline was 10 cents at Peoria, Ill., while the highest was 27 cents at Phoenix, Ariz.

The Mississippi Valley average is the lowest recorded by the survey, being 19 cents, while the average on the Pacific Coast is 20 cents and on the Atlantic seaboard, 28 cents. All of these figures are without special state taxes, which range from one cent to five cents a gallon.

Electricity Will Do Your Dishwashing for You

"THE CONOVER is thoroughly practical!" From all sides we hear the same verdict—from household science authorities, from engineers, from homemakers.

Practical in Every Way

This enthusiastic acceptance means but one thing—the new Portable Model AA CONOVER is in every way practical for you,—with large family or small, in house or apartment. There is no cost but the machine itself—no new sink or plumbing is required. The CONOVER brings the convenience and sanitation of electric dishwashing within the means of the thriftiest budget.

To operate it is simplicity itself. Fills from faucet, empties into sink. A few minutes and all the dishes from an average meal come out delightfully clean, sparkling, hot and dry!

You must see it to realize how practical a time and work-saver the CONOVER can be.
