

A Natural Outlet for a Growing Population— SKOKIE VALLEY!

Consider the admirable position of the Skokie Valley with regard to future values.

It is the western part of the North Shore region, recognized as a highly desirable place to live. The homes of those who inhabit the built-up lake shore districts are separated by liberal expanses of land. Residents here have the means to preserve these pieces of property intact. It is assured that there will be no future subdividing of importance throughout most of this district.

Still people continue to move northward. The new electric line is bringing them faster. Complete habitation of the Valley is inevitable. It presents splendid profit possibilities to the investor.

In this delightful region, Quinlan & Tyson can offer you small acre tracts for attractive homesites, or to hold for investment. As specialists in the varied opportunities of the North Shore, this organization is well equipped to assist you in developing a profitable Skokie investment.

Study the Skokie's bright prospects. Consider what an investment here can do for you. All the information is available at this office. Let us discuss the advantages of investment here at your first opportunity.
