

## ILLINI RELAY MEET SET FOR MARCH 17

**Five Hundred Athletes from Middle West Schools to Participate in Big Event**

Speed will be the keynote Saturday, March 17, when more than 500 athletes gather for the eleventh annual University of Illinois indoor relay carnival in the Illini armory.

Recognized as the greatest indoor relay event of the year, the meet will attract the pick of the Big Ten, Missouri Valley, Little Nineteen, and other universities, high schools, and colleges throughout the United States.

That the meet has grown to represent the best in track is evidenced by the fact that five world's records have suffered since the meet started in 1917.

Nor will the track be the only place where speed is practiced as the management plans to unfold the big affair between the hours of 7:30 and 9:30.

### Eight Relay Races

There will be eight relay races. The university relays, one mile, two and four miles and medley races will be held at night as will the finals in the special events. College and high school relays, the all-around competition and the preliminaries in the special events will be staged in the afternoon.

Special events will include the 75-yard dash; high and low hurdles; 300-yard, 1,000 yard, and 1,500 meter runs; high and broad jump, and pole vault and shot-put.

### Expect 4,000 Spectators

Now that the relay meet is to be held later in the year when there are prospects of better weather for out-of-town fans, it is expected that more visitors than ever before will travel here. Tickets are now available.

More than 4,000 spectators will be accommodated in the armory, one of the largest buildings in the world without a centrally supported roof. This lack of vision-halting roof supports and the distribution of the finish lines on three sides of the track assure each spectator his share of the thrills.

### LECTURE ON WORLD WAR

Dr. Guy Terry in the Thursday Study class which met at the home of Mrs. Gilbert Kelly, Cumnor road, Kenilworth, continued his study course on the historical study of the countries of Europe up to the beginning of the World War. Dr. Terry has an inexhaustible fund of information about the political and economical situation at this period and he brought a very clear, lucid picture of the situation in the Balkan states, in Serbia, and in Russia just before the fatal assassination of the Arch Duke, Franz Ferdinand.

The next meeting will be held with Mrs. Karl Korrady, in Evanston.

### JOINS BOND FIRM

Mrs. Anna M. Schaedler, 301 Sheridan road, Wilmette, is announced as a director of the newly established Consolidated Bond and Mortgage company with offices at 72 W. Washington street, Chicago. Mrs. Schaedler will have supervision of the Woman's department.

The opening of the new Edgar Stevens store in Evanston was of great interest to friends of Mr. and Mrs. Stevens in Kenilworth and it is interesting to know that the patronage of the models and accessories which Mrs. Stevens had assembled for the opening were in such demand that she has had to make a hurried trip to New York for an added supply.

# Dishwashing Magic

## Two Racks

The two basket, or rack, arrangement provides a special place for glassware and silver. Each piece remains stationary during the process.

## Geyser Motion

An impeller connected to the motor, whirls the water up in a geyser-like motion, plunging it up and down in the dishes, reaching every spot.

## The Conover Simplifies Dishwashing

Your dishes may be washed to an immaculate whiteness, rinsed twice, and dried—all in ten minutes time. Isn't that simple?

All you have to do is to place the dishes in their proper places: silver in separate basket in bottom rack, plates in lower compartment, cups, saucers, and glasses in the upper rack. Fill the machine from the faucet (takes 15 seconds). Sprinkle in soap flakes and water softener. Turn on the current!

Mounted on rubber wheels, this new appliance may be rolled about as easily as your tea cart, and tucked away in between times.

## CONOVER Electric DISHWASHER For Home Kitchens

See the Conover in action at

We will gladly have the Conover wash dishes for you in your own home. Telephone for a demonstration.
