

Lee Says:—

WE'RE feeling pretty
BLUE today—last night
WE read that the earth
IS shrinking two inches a
YEAR! If somebody
DOESN'T put a stop to
THAT, what's going
TO become of us?
AND in the same magazine
WE learn that a scientist
IN England is monkeying
WITH some kind of an
ELECTRONIC contrivance
THAT has energy enough
TO blow up the world!
SO what's the use?
JUST when we begin to
FEEL encouraged over
BUSINESS conditions, the
EARTH begins to shrink
OR something! There's
ONLY one thing left
FOR you to do
AS we see it—Ladies
ENJOY life while you can—
PROVIDE yourselves with
ELIZABETH ARDEN'S
TOILET Preparations
WHICH we will
HAVE here at our store
UNTIL the big explosion
TAKES place.

Elizabeth Arden

A few of Elizabeth Arden's
preparations always
in stock.

Anti-Wrinkle Cream
Amoretta Cream
Astringent (Special)
Cleansing Cream

WINNETKA 2

One Building Permit Each Day Keeps Dull Times Far, Far Away

The first seven days in March witnessed the issuance of seven building permits in Winnetka, an average of one each day, for new residences, the total value of which is nearly one quarter millions dollars.

The showing is not only most gratifying to Building Inspector A. B. Kreig, but dispels all speculation as to what the Spring building business is to be in the village, providing the start of the opening of the Spring month is to be a criterion.

A permit was issued to H. H. Windsor, Jr., of Evanston for a fifteen room residence at 419 Sheridan road to cost \$116,000.

Jevene Haugan took out a permit for a \$30,000 house at 1400 Tower road. Two permits were issued to C. B. Metzler of Kenilworth for residences to be erected at Sheridan road and Fuller lane, one costing \$14,000 and the other \$15,000.

L. J. Foster of Evanston will build a \$17,000 house at 330 Locust road.

Ella Q. Needler, also of Evanston, was granted a permit for a \$17,000 residence at 339 Sheridan road.

Domeni Baruffi of Highwood took out a permit for a house costing \$16,000 to be erected at 1260 Ash street.

Winnetka Scouts to Stage Annual Exhibit March 22

Winnetka Scouts have been working hard for the past two months in preparation for the annual Scouting exhibition which is to be held at Community House on March 22. The plans for the affair are now practically completed and a dress rehearsal of the various parts of the program is to be held next Thursday night.

Each of the twenty patrols will have a booth at the exhibit in which will be demonstrated some phase of Scout work, either a merit badge or something they have made. In addition fifteen different acts will be put on in the auditorium by the boys presenting some phase of Scouting activities.

NAB CAR STRIPPERS

Police Arrest Accessory Thieves in Act; One Identified as Burglar Who Robbed Winnetka Home

Erven and Edward Jonzek of Chicago, were caught early Sunday morning by Officer Ralph Fjellman at Elm street and Hibbard road, "stripping" a car.

The former was identified by Miss Alice Beck, maid at the home of A. D. Crawford, 185 Fuller lane, as the man who, on January 23, entered the house and stole \$40.

The men, when arrested, had a car on which there was a fictitious license plate, and also had burglar tools in their possession.

Edward was bound over to the grand jury and held in bonds of \$2,000, on the charge of having the burglar tools in his possession.

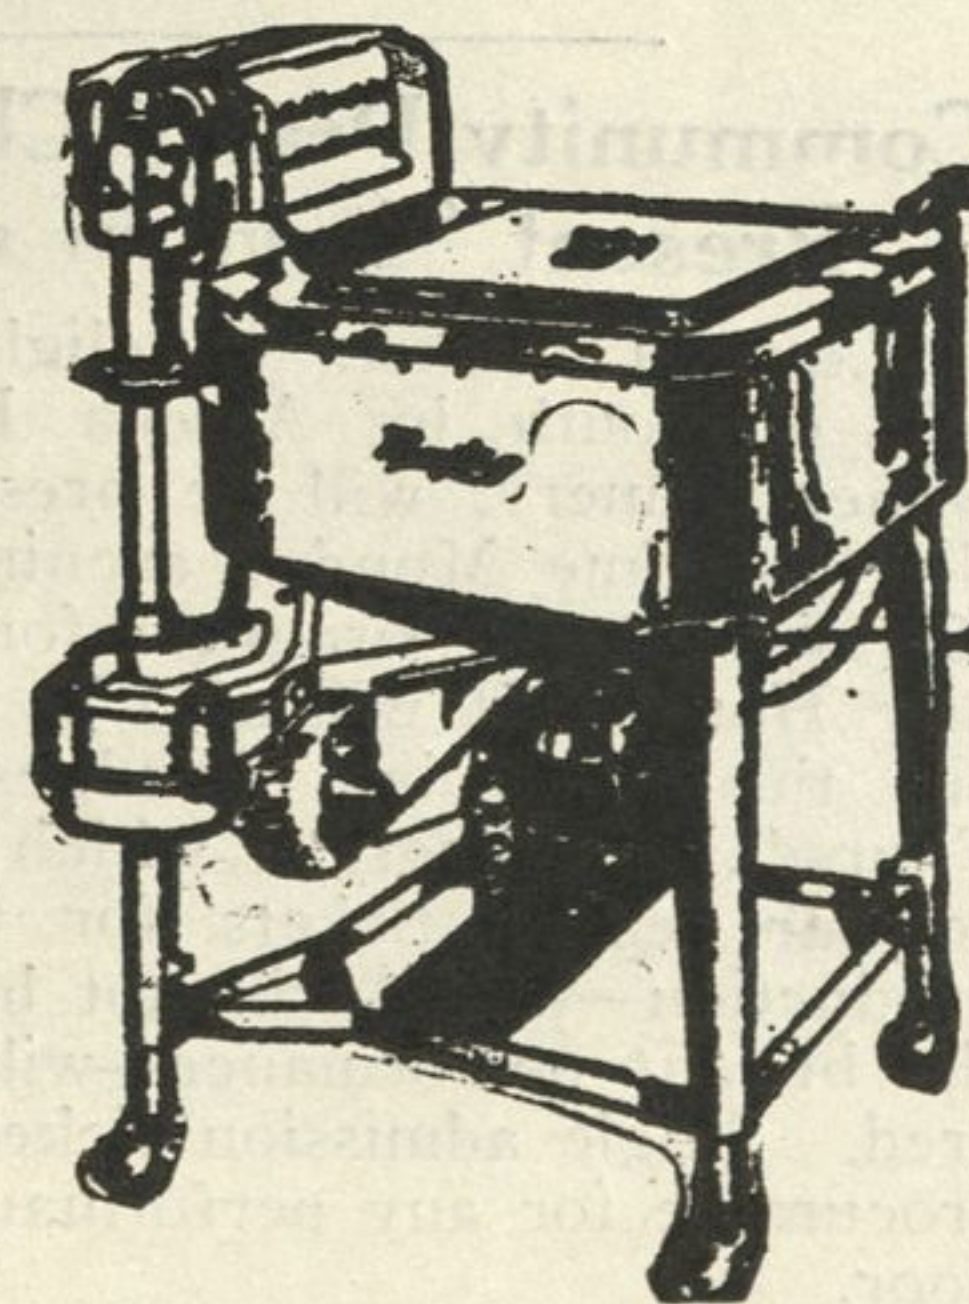

Naphtha Causes Hot Fire; Chief Again Warns Against Use

The fire department was called to the residence of John R. Cochran, 370 Chestnut street, Thursday morning at 9:50 to extinguish a fire resulting from flaming naphtha, which, for a time, threatened the destruction of the house.

Three vessels, each containing about a gallon of the fluid, were in the butler's pantry and near the gas range, in which the pilot light was the only blaze. Presumably the naphtha was ignited from this.

The department was able to confine the fire to this part of the house and the damage resulting was comparatively small.

G. M. Houren, chief of the Winnetka fire department, has, from time to time, called attention to the danger of using naphtha for cleaning purposes. In the case at the Cochran home, where every precaution had been taken, the fire occurred, nevertheless, and Chief Houren again gives warning not to use naphtha about the premises, in any way.

America's
Leading
WASHER
MAYTAG
Model 90

The Maytag Washer sells itself upon a single demonstration nine times out of ten—which proves itself "the washer."
