

# PIERCE ARROW

## YOUR THINKING, TOO!

*It is the way people THINK about Pierce-Arrow that contributes to this car's great individuality*

THE new Pierce-Arrow, for example, is a car of unusual grace and style. It has a distinguished social background. But you think of Pierce-Arrow as something fine as well as fashionable—something genuine as well as beautiful.

It is intentionally *not* a car for competition, in the customary sense. No limits are set on the fineness of its detail.

It is *emphatically* a car for those who, having a taste for fine things, have learned that it is not an extravagance to gratify that taste.

Twelve custom-built models in the Continental fashion and colorings.

From \$2900, at Buffalo.

*You may purchase a Pierce-Arrow out of income if you prefer. A simplified financing plan makes this a most practical procedure. Your present car accepted as cash up to the full amount of its appraisal valuation.*

## Christian Science Churches

"Man" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, Sunday, March 4.

The Golden Text was from Psalms 37:37, "Mark the perfect man, and behold the upright; for the end of that man is peace."

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "And God said, Let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth (Genesis 1:26).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy; "God and man are not the same, but in the order of divine Science, God and man coexist and are eternal. God is the parent Mind, and man is God's spiritual offspring" (p. 336).

## SPEAKS OF INDIANS

Mrs. Harold L. Ickes of 900 South Private road recently spoke to the pupils of Skokie school on "The Indians of the Southwest." Mrs. Ickes spent a great deal of time this summer with the Indians of these tribes, the Navajo and the Pueblo. It has been one of her interests to study these Indians. She returned in December to see two very interesting ceremonials. For the past four years she has seen the snake dance. Mrs. Ickes' interest in these two tribes is very great, and she has done a great deal of good. Her talk to the Skokie students was very interesting and beneficial.

## Waltonians Plan National Session at Omaha, Nebraska

North shore members are interested in the Sixth annual convention of the Izaak Walton League of America, which will be held at Omaha, Neb., April 19, 20 and 21.

The National Sportsmen's show, an exhibition of outdoor equipment at which new models of standard outing paraphernalia are brought out and innovations are introduced, will be held in conjunction with the Walton convention, beginning one day in advance.

"The national conventions of the Walton league are the outstanding gatherings of the year among outdoor people," declared Fred H. Doellner, general manager of the league, "and at these meetings the conservation policies of America are largely determined for the ensuing year."

Leading conservationists, nationally known sportsmen, outdoor writers, and in fact the leaders of every line of outdoor endeavor congregate at the league's annual sessions, according to Mr. Doellner. Col. Charles Lindbergh, Theodore Roosevelt, Ex-governor Parker of Louisiana, are among those to whom invitations to speak have been sent.

Flood control, reforestation, propagation of wild life, climation of pollution of waters, protection for outdoor assets, are the general subjects to be discussed by authorities in each line.

## ADDRESSES CONGREGATION

Dr. Solomon B. Freehof addressed members of the North Shore Congregation Israel last evening on "How Modern Should Religion Be?" This was the first of the regular Friday evening services to be given in the new temple at Lincoln and Vernon avenues, Glencoe.

## A PLACE TO PARK WHILE IN THE LOOP
