

Spring Is Here! At Least for Our Local Ball Club

All the early season baseball gossip is not confined to the Major league training programs, not by any means, particularly in Winnetka, where the local team last year distinguished itself by its splendid organization and playing, and where plans are already underway for the coming season.

A meeting will be held at Community House, Friday evening, March 23, at 7:30 o'clock, to which everyone wishing to try out for this year's team is urged to attend. A tentative schedule of games for the season will be presented for consideration at this time, and a manager, or field captain will be appointed.

The coming meeting is not alone for those wishing to get their names on the try-out list for positions on the team, but any resident of the village interested in the continued success of local baseball, will be welcome.

Earl Smith, well known pitcher of two years ago, who distinguished himself on the local team that season, is back in the village, and will be on the pitching staff of the team this year. There is a lot of good talent available, and the outlook for developing the best team in Winnetka's baseball history, is very promising, it is said.

The team last year, in its schedule of sixteen Sunday games, won ten of that number, and among its opponents were numbered some of the best amateur teams in this section.

Stanton Fletcher, son of Mr. and Mrs. Edwin S. Fletcher of 822 Bryant avenue, has recently been honored by election to the Cercle Francais at Harvard, where he is a freshman.

Mr. and Mrs. Robert H. Ripley of 292 Indian Hill road are still at Palm Beach. Their stay is indefinite.

Mrs. John H. Cadmus, 1126 Tower road, entertained her Reading club at luncheon at the Hearthstone Tea shop, Thursday, March 8. After luncheon the party returned to Mrs. Cadmus' home where they spent the afternoon.

Mr. and Mrs. George Prest of 965 Spruce street are the parents of a boy born Saturday morning, March 10, at the Evanston hospital. He has been named John Michael Prest.
