

Kindergarten College Aids Nursery

THE National Kindergarten and Elementary college opened a demonstration school at Mary Crane Nursery, Hull House, September, 1925.

Miss Nina Kenagy is in charge of the educational work of the Mary Crane Nursery. Miss Kenagy is a graduate of the college and of the University of Iowa, and has had many years of experience as a kindergartener and special work with Dr. Bird T. Baldwin of the University of Iowa in the pre-school movement.

There is an unusual opportunity, to co-ordinate the work of social, educational and welfare agencies at Mary Crane. The Nursery school gives three feedings a day, a rest period in the morning and a nap after the noon meal. Every child is bathed at least three times a week unless the home supplies this need.

There are toys and play-materials suited to size, songs, rhythms and stories. All of this equipment and material is combined in a clearly defined educational program emphasizing health habits, mental development and moral-social adjustments.
