

There's Pride in Ownership of a GOOD Used Car!

A DEPENDABLE USED CAR appeals to two classes of motorists. First, those who want reliable transportation at a nominal cost and are willing to sacrifice the newness of the first few hundred miles to eliminate the cost of original depreciation. Second, those who require an inexpensive means of transportation until such time as they see fit to make a larger investment in a new car.

Avoid the embarrassment and inconvenience of driving the *wrong* used car by selecting the *right* used car from one of the authorized motor car dealers who advertise their current offerings on this week's Want Ad Page.

Christian Science Churches

"Matter" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, Sunday, March 18.

The Golden Text was from Luke 16:13, "No servant can serve two masters: for either he will hate the one, and love the other; or else will hold to the one, and despise the other. Ye cannot serve God and mammon."

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Love not the world, neither the things that are in the world. If any man love the world, the love of the Father is not in him" (I John 2:15).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The enslavement of man is not legitimate. It will cease when man enters into his heritage of freedom, his God-given dominion over the material senses. Mortals will some day assert their freedom in the name of Almighty God" (p. 228).

Winnetka Man Establishes Brake Service Enterprise

Thomas M. Brooks, 439 Walnut street, Winnetka, has opened a new and exclusive brake service at 5630 Broadway, Chicago, a location just north of Bryn Mawr avenue.

Brooks Brake Service, Inc., will specialize in all types of automobile brakes. No expense has been spared, according to Mr. Brooks, to make this establishment one of the finest of its kind. The very latest scientific apparatus has been installed for testing, adjusting and repairing mechanical and hydraulic brakes. Brake drums that are scored or out of round are reconditioned by a special grinding process that insures accuracy, he states.

Associated with Mr. Brooks in the business is Franklin Young of Evanston.

Reserve Officers to Hear Lecture by Army Officer

Reserve officers of north shore towns are expressing great interest in the meeting of North Shore chapter to be held tonight. There are two features of this occasion which are expected to turn out an unusually large attendance of citizen soldiers. Capt. Walter M. Tenny of the Regular Army, who is an authority on field artillery tactics, is to give a lecture on the recent improvements made in the Artillery branch of the service and explain the improved methods which have been developed since the World War.

The other important aspect of the meeting is the fact that every reserve officer attending is to be given a certain number of hours credit on the time he must devote to military matters under the provisions of his commission. Recent War Department regulations require that reserve officers must put in specified hours of time in active duty training. Many business and professional men find it almost impossible to take time from their businesses to go to summer training camps. Consequently, the opportunity to obtain credit for training by attendance at lectures is of great importance to those who appreciate the responsibility imposed by commissions in the Officers Reserve corps.

It has been stated that the meeting tonight will be preceded by a dinner at Hew's Grill, 616 Church street, Evanston, and that reservations may be made by telephoning W. J. Patterson, University 1852.

Great Interscholastic Meet on at Patten Gym

The greatest interscholastic track and swimming meet ever held in the Middle West is being staged at Northwestern university this weekend with eighty teams from seven states entered in the contests. Over 600 high school athletes are competing.

A Fence for the Small Estate

These snug little suburban homesteads of two or three acres can well mark their legal limits with the fence that "fits in" admirably with artistic and comfortable surroundings.

RUSTICRAFT'S hand-split timbers of tough young chestnut are as good to look at as they are sturdy and durable. Their natural rustic appearance actually improves with age and requires no paint or care. RUSTICRAFT is easily erected and just as easily taken down for removal.

Illustrated Booklet and prices on request

RUSTICRAFT
