### "Grass," Children's Film at Field Museum Saturday

"Grass," the epic moving picture of the life of the wandering tribes of Persia, recently a box-office success in theaters of Chicago and elsewhere, will be shown for children of Chicago and suburbs at Field Museum of Natural History Saturday, March 31. This free entertainment is to be given under the provisions of the James Nelson and Anna Louise Raymond fund. The film depicts the semi-annual journey, fraught with hardships, of the Bakhtiari tribe and their herds across the mountains in search of grass for pasture. Their lives depend upon the grass and they must follow the seasons in search of it. In winter the western side of the mountains provides an abundance; in summer the terrific heat there burns the grass up, and they must go over the mountains where it is cooler. Winter comes again, the eastern grass freezes and dies, and the nomads are forced back over the mountains for the ever needed grass. Human babies, as well as lambs, colts, kids of goats, and calves, must endure the heat of the desert and the cold of the mountain snows in these pilgrimages.

The picture will be given in the James Simpson Theatre of the museum, and will run continuously from 10 a. m. until noon.

### GARDEN CLUB TO MEET

The Home and Garden club of Kenilworth met at the home of Mrs. Tom Dix on Oxford road on Monday, March 20, and will meet again on April 2, at the home of Mrs. Joseph White on Sheridan road. This coming meeting is hoped to be a guest day and the club is planning to have a speaker on "The Planting of Seeds." Mrs. Theodore Moritz is president of the Home and Garden club.
