

Light Vote Cast in Village Election

With only one ticket in the field, less than five hundred votes were polled at the annual village election Tuesday. Two of the three candidates for trustees, Carl J. Easterburg and R. H. Schell, were re-elected, the third, William B. Moulton, being a new member in place of D. F. McPherson, who was not a candidate for re-election. Mrs. Stella Winslow, who was re-elected village clerk, has served four full terms in this office in addition to filling out the unexpired term of William A. Hare, who resigned in May, 1919, at which time she was appointed.

To Vote on Bond Issue for School Expansion April 14

Winnetka residents will have the opportunity of voting on the proposed issuance on \$415,000 in bonds for the purpose of carrying out the plans for the expansion of the Winnetka Public schools to meet the increasing enrollment, on April 14. While the complete building program as outlined by the school board for the quadrennium

just beginning will not be undertaken all at one time, it is necessary that the full bond issue be authorized so as to allow the board to lay definite plans for the work, it is explained.

Remember a small vote is a vote cast largely by those who have a personal interest to serve.

The best candidate can be chosen if every citizen votes.

Edward Paul Wetzel, Long Sought, Is in Custody, Police Learn

Chief of Police W. M. Peterson received a telegram Thursday informing him that Edward Paul Wetzel, who formerly operated a taxi in Winnetka had been arrested at Lansing, Mich., where he is being held for violation of the Dyer act, transporting a stolen car from one state to another.

Chief Peterson had before him a volume of correspondence and telegrams from officers in various parts of the United States and Canada relative to Wetzel, whom he has been endeavoring to locate since the spring of 1924, when Wetzel, it is charged, went south with a mortgaged car he had purchased from the Skokie Motor Co., and leaving behind, also, 19 bogus checks for \$969.50.

Chief Peterson made no effort to conceal his pleasure at the news that Wetzel had finally been apprehended. He was not indicted here on the charges against him four years ago, and the Chief feels it is improbable that it will be possible for him to follow up the prosecutions which he could have done in the past.
