

550 MILES OF CANDY

Enough candy bars to make a solid bar more than 550 miles long if placed end to end were recently shipped in five trainloads to the west on the Chicago & North Western railway. In one shipment there were 1,800,000 bars, enough to supply every man, woman and child in the cities of Salt Lake, Billings, Great Falls and Helena, Mont., Seattle, Portland, San Francisco and Los Angeles with one bar each. An unprecedented volume of candy is now being moved out of Chicago, according to freight traffic officials of the railroad.
