

(50) feet to the point of beginning;
 All in Block Three (3) in Jared Gage's Subdivision of part of the East Half of the Northwest Quarter, also part of the West Half of the Northwest Quarter of Fractional Section Seventeen (17); also part of the East Half of the Southwest Quarter of Fractional Section Eight (8), in Township Forty-two (42) North, Range Thirteen (13) East of the Third Principal Meridian;

TRACT NUMBER 9. The southwesterly sixteen (16) feet of Lot One (1);
 TRACT NUMBER 10. The southwesterly sixteen (16) feet of Lot Two (2);
 TRACT NUMBER 11. The southwesterly sixteen (16) feet of Lot Five (5);
 TRACT NUMBER 12. The southwesterly sixteen (16) feet of Lot Six (6);
 TRACT NUMBER 13. The southwesterly sixteen (16) feet of Lot Seven (7);
 TRACT NUMBER 14. The southwesterly sixteen (16) feet of Lot Ten (10);
 TRACT NUMBER 15. The southwesterly sixteen (16) feet of Lot Eleven (11);
 TRACT NUMBER 16. The southwesterly sixteen (16) feet of Lot Twelve (12);
 TRACT NUMBER 17. The southwesterly sixteen (16) feet of Lot Thirteen (13);

TRACT NUMBER 18. The southwesterly sixteen (16) feet of Lot Fourteen (14);

All in Block Six (6) in Jared Gage's Subdivision of part of the East Half of the Northwest Quarter, also part of the West Half of the Northwest Quarter of Fractional Section Seventeen (17); also part of the East Half of the Southwest Quarter of Fractional Section Eight (8), in Township Forty-two (42) North, Range Thirteen (13) East of the Third Principal Meridian;

And that when so condemned, the said above described tracts of land shall be improved by constructing therein a reinforced concrete pavement sixteen (16) feet in width, as follows:

From and connecting with the existing pavement in Merrill Street southeasterly to and connecting with the existing pavement in Gage Street; also from and connecting with the existing pavement in Gage Street southeasterly to and connecting with the existing pavement in Tower Road.

Said pavement shall be widened at its intersection with all existing pavements, to form proper connections with said existing pavements, by curved lines having the following radii to the back of the curb or edge of pavement;

At Merrill Street, both of said radii shall be twenty (20) feet; at Gage Street, all of said radii shall be twelve and five tenths (12.5) feet; at Tower Road, the northeasterly radius shall be twenty-five (25) feet, and the northwesterly radius shall be twelve and five tenths (12.5) feet.

The description of the location of the said proposed pavement shall be identical with the description of the land herein proposed to be acquired, except as to that part of the said proposed pavement to be constructed in said Merrill Street, Gage Street and Tower Road.

Said proposed improvement shall include clearing, grubbing, excavating, filling, grading and preparing the subgrade to receive the said proposed pavement, removing trees, concrete sidewalks, concrete driveways, concrete curb, concrete curb and gutter, electric light poles and frame buildings, constructing an electric manhole, constructing concrete sidewalk approaches, and constructing a one (1) course reinforced concrete pavement sixteen (16) feet in width and eight (8) inches thick, without curbs, except in said Merrill Street, Gage Street and Tower Road, in each of which said streets a concrete curb shall be constructed along each edge of and on top of said proposed pavement, from the existing curb of the present pavement to the edge of the existing sidewalk nearest the center line of the street, except that no curb shall be constructed on the proposed pavement connecting with the northwesterly side of the existing pavement in Gage Street. The top of said proposed curb shall be flush with the existing curb to which it connects, and said curb shall terminate at the grade of and at the edge of the existing walk nearest the center line of the street, all within the Village of Winnetka, County of Cook and State of Illinois.

NOTICE IS ALSO HEREBY GIVEN TO ALL PERSONS INTERESTED, that the Council of the Village of Winnetka, County of Cook and State of Illinois, having ordered that the improvement above described be made, the ordinance for the same being on file in the office of the Village Clerk of said Village, and the said Village having applied to the Superior Court of Cook County, Illinois, for an assessment of the cost of said improvement according to the benefits, and a special assessment therefor having been made and returned to said Court, the final hearing thereon will be held on the fifteenth day of May, A. D. 1928, or as soon thereafter as the business of said Court will permit. All persons desiring may file objections in said Court before said day and may appear on the hearing and make their defense. Said ordinance provides for the collection of said assessment in ten (10) annual installments,

with interest thereon at the rate of five per centum (5%) per annum.

Dated at the City of Chicago, and at the Village of Winnetka, County of Cook and State of Illinois, this eleventh day of April, A. D. 1928.

SAMUEL E. ERICKSON,
 Clerk of the Superior Court of Cook County, Illinois.
 HENRY F. TENNY,
 E. BURT BROWN,
 HARRY I. ORWIG,
 Commissioners heretofore appointed by the Superior Court of Cook County, Illinois, to make said report and assessment roll.

FREDERICK DICKINSON,
 Village Attorney.

T6-4tc

Rules and regulations adopted by the Board of Health of the Village of Winnetka, pursuant to the provisions of an ordinance passed and approved by the Council of the Village of Winnetka on the 19th day of April, A. D. 1927.

REGULATION NO. 1. Relative to Sec. 3. METHOD OF REPORTING. Every physician or other person having knowledge of any person affected or apparently affected with any disease specified in Sec. 3 shall report to Health Officer the following data:

Full name, age, sex, and exact address of patient.

Exact occupation, place of employment or school attended by patient.

Name, and address of person making report and date of report.

Number of children or adults in household.

The report shall be made within six hours after the case comes under observation, preferably by telephone. A specimen sent to the Health Dept. for laboratory diagnosis and accompanied by the data given above shall be considered as a report.

The term "other person" as used in this regulation shall mean in the absence of a physician any parent, guardian, householder, keeper of a hotel or lodging house, midwife, nurse, school teacher, superintendent of an institution, master of a vessel, owner or manager of a dairy, or other person having under his care or observation a person affected or apparently affected with a communicable disease.

REGULATION NO. 2. Relative to Section 4. MEASURE FOR CONTROL IN SCHOOLS. The teacher of any school, college, university or Sunday school, having under his care any pupil who appears to be affected by any communicable disease, shall promptly send such pupil home or separate him from other pupils until examined by a physician. The teacher shall report the case in accordance with Section 3.

A pupil who has been excluded from a school, college or university on account of having been affected with or exposed to communicable diseases shall not be readmitted to school without a permit from the Health Officer.

REGULATION NO. 3. Relative to Section 6. METHODS OF ISOLATION IN VARIOUS DISEASES. Every person suffering from any of the diseases mentioned in Section 3 shall isolate himself and every person in charge of such a person shall isolate the person of whom he is in charge in the following manner:

- When the disease is:
- Anthrax
 - Cerebro-spinal fever
 - Cholera
 - Diphtheria
 - Glanders
 - Leprosy
 - Measles
 - Plague
 - Poliomyelitis
 - Scarlet fever
 - Septic sore throat
 - Smallpox
 - Typhoid fever
 - Yellow fever

the person affected shall be absolutely isolated

- When the disease is:
- Chancroid
 - Chickenpox
 - Dysentery (amebic, bacillary)
 - Gonococcus infection
 - German measles
 - Hookworm infection
 - Lethargic (epidemic)
 - Encephalitis
 - Pneumonia—primary or secondary
 - Influenza
 - Mumps
 - Rabies
 - Syphilis
 - Trachoma
 - Tuberculosis
 - Typhoid and paratyphoid fevers
 - Whooping cough

the person affected shall be so restricted, in movement that the disease will not spread from him to others.

- When the disease is:
- Dengue
 - Malaria
 - Yellow fever

the person shall be kept in a screened room free from mosquitoes, provided that this form of isolation will be enforced

only when practicable in the case of malaria.

No persons other than the physician or person in charge of or in attendance of the patient shall enter any premises, room or apartment quarantined for a communicable disease in violation of the terms of the quarantine. No person shall willfully or negligently expose any other to a communicable disease.

REGULATION NO. 4. MINIMUM PERIODS OF ISOLATION. Relative to Sec. 8. The minimum periods of isolation in various diseases shall be as follows:

Chickenpox—For seven (7) days and until all scabs have disappeared from the skin.

Diphtheria—For a minimum period of sixteen (16) days or until two successive cultures taken from both nose and throat twenty-four hours apart, after disappearance of the membrane and the temperature is normal.

Measles—For a period of five days after the appearance of the rash and until the cough and other catarrhal symptoms and abnormal mucus membrane secretions have ceased.

German Measles—For eight days from the onset of the disease.

Mumps—For a period of seven days (7) after appearance of the disease and until disappearance of the glandular

Scarlet Fever—For a minimum of four weeks until throat is normal and all discharges from ears and suppurating glands have ceased.

Smallpox—For a minimum period of three weeks and until the skin is entirely smooth and the "Seeds" have disappeared or have been removed from the palms of the hands and soles of the feet.

Whooping Cough—For three weeks after the development of the characteristic whoop or paroxysmal cough or until one week after the paroxysmal cough has disappeared.

Epidemic Meningitis—For two weeks after onset or until two successive cultures from the nasopharynx taken at intervals of three days by or under the supervision of the Health Officer show no meningococci.

Infantile Paralysis—For the period of the clinical course of the case and at least three weeks from date of onset.

Typhoid Fever—For the clinical course of the disease and until two successive specimens of faeces and the urine taken one week apart are found by laboratory examination to be negative for typhoid or paratyphoid bacillus.

Septic Sore Throat—For the period of the clinical course of the disease and until the throat culture is negative or no longer shows hemolytic streptococci.

Lethargic (Epidemic) Meningitis—For two weeks from onset.

Pneumonia and Influenza—Until five days after temperature is normal and all discharges have ceased or a negative culture is obtained from nose and throat.

REGULATION NO. 5. INCUBATION PERIODS. For the purpose of Ordinance Section 8 the maximum incubation periods shall be considered to be as follows:

Chickenpox—18 days from the last exposure.

Diphtheria—One week, unless immunity has been proven by a Schick test or complete immunity has been secured by toxin-antitoxin three months previous to exposure or negative culture results are obtained from throat and nose.

Measles—Sixteen days from the date of last exposure.

German Measles—Three weeks from date of last exposure.

Mumps—Three weeks from date of last exposure.

Scarlet Fever—One week from the date of last exposure.

Smallpox—Twenty days from the date of last exposure.

Whooping Cough—Ten days from the date of last exposure.

Epidemic Meningitis—Ten days from the last exposure or until culture from secretions of naso-pharynx taken by or under the supervision of the Health Officer show no meningococci.

Infantile paralysis—If under 16 years of age, two weeks from last exposure.

Typhoid Fever—All contacts should be immunized with triple typhoid vaccine.

Septic Sore Throat—When laboratory examination shows throat and nose cultures to be free from hemolytic streptococci.

The Health Officer may cause the isolation of contacts of mumps, chickenpox and German measles for all or any part of the incubation period of the diseases.

REGULATION NO. 6. Relative to Section 6. DISINFECTION. PRECAUTION BY ATTENDANTS. The physician or other person permitted to visit a person affected with communicable disease shall practice such measure of personal cleansing, disinfecting and all other precautions necessary, to prevent the spread of the disease to others.

REGULATION NO. 7. Relative to Section 17. FOOD HANDLING ESTABLISHMENTS. Restaurants, hotels, lunch counters, soda fountains, candy shops, grocery stores, bakeries, butcher shops and other places where food stuffs are kept for sale shall be located in areas

at all times free from contamination, with proper drainage and connection with the sewerage system. They shall be well constructed with proper light and ventilation, shall be kept in a clean and sanitary manner and shall offer for consumption only clean, freshly prepared foods in a thoroughly wholesome condition. All utensils, tables, sinks, refrigerators and other storage facilities shall be clean, sanitary and properly ventilated. Tables, sinks, etc. where food is prepared shall be separate from those where dishes and utensils are washed. No cracked or broken dishes or utensils which cannot be properly cleaned shall be used. There shall be provisions for properly scalding by boiling water or steam all eating utensils and dishes. There shall be sufficient light and proper ventilation and the premises shall be kept free from insects and mice and other vermin. There shall be a water closet, conveniently available, and lavatory with hot and cold water and individual towels in the working rooms, separate from the sinks for washing dishes and utensils. All plumbing shall be kept in repair and efficient working order. All working rooms for preparing, serving or offering for sale of foods shall be arranged so they may be completely shut off from other rooms used for living quarters. All employees shall be personally clean and exterior clothing worn by them shall be clean and washable.

As provided by the ordinance referred to, the foregoing rules and regulations shall take effect and be in force ten days after publication in a newspaper of general circulation in the Village of Winnetka.

HOWARD A. ORVIS, Sec.,
 Board of Health,
 Village of Winnetka.

- Landscape Gardening**
- Peabody—Outside the house beautiful.
 - Ely—Woman's hardy garden.
 - King—Little garden.
 - Wright—Practical book of outdoor flowers.

- Periodicals**
- Arts and decoration.
 - House Beautiful.
 - Good Housekeeping.

Authorize Replacement of Lighting Plant Equipment
 Village Manager H. L. Woolhiser was authorized by the Village Council Tuesday evening to make repairs and replacement of the Winnetka light plant equipment at an estimated cost of \$22,000. The action was taken following the Village Manager's report that the load carried by the main cable leading from the plant reached its maximum last December, and that it is necessary to replace the cable with one carrying a greater amount of current. The improvement is planned to take care of a load 50 percent greater than at present, and is to be placed in permanent tile conduits, extending from the plant to Bryant avenue, instead of to Sheridan road.
