## "Escape" Feature Film at Granada; Install Movietone

Fox Movietone has been added to the equipment of both the Granada and Marbro theaters and the programs will include both Vitaphone and Movietone selections in the future, it was announced this week by Marks Bros. The new Movietone will be inaugurated this Saturday, May 12.

"Bubbles of Joy" is the title of Benny Meroff's stage presentation for the coming week at the Granada. It is said to be aptly named and to be alive with music and laughter and couched in a setting of color. Certain it is that there will be new dances and new steps and Benny and the Granada stage band.

"The Escape," a Fox film, is the screen fare. Based on Paul Armstrong's stage production of the same name, the plot concerns two sisters who, fighting alone, climb from the depths to respectability and wholesome love. Virginia Valli and William Russell are the featured players. It also shows off Nancy Drexel to advantage and Charlie Meeker again proves that a blonde leading man does have appeal.

## "The Patent Leather Kid" Opens at Varsity Monday

Lubliner and Trinz are offering "Under the Black Eagle" at the Varsity theater this Saturday. Regarding which no info is available. Sorry.

Next Monday, Tuesday and Wednesday, however, will be presented a play that is too good to be missed, "The Patent Leather Kid." Dick Barthelmess gives a truly great performance as a prizefighter who turned "yellow" when first drafted into the World war but who lived to turn again and became a hero. More than pleased to recommend that you see it.
