Twelve Billion In Sales
One Year's Production

The Chicago Real Estate board is getting out a series of notable facts about Chicago. The first states that that city's annual production in manufacturing, wholesale and retail sales is Twelve Billion Dollars (\$12,000,000,000) a year. That is a staggering figure. Twelve billion dollars will buy ten states of the Union outright, will pay the expenses of the United States government for one hundred years from 1791 to 1891 including the Civil war and will buy all the church and school property in America. That's something for Realtors to think about.

Library Story Hour Group
to Hear Rhinegold Stories

Miss Elizabeth Schreiver of the National Kindergarten and Elementary college of Evanston will begin the telling of the Rhinegold stories to the children at the story hour, conducted under the auspices of the Children's department of the Wilmette Public library, this Saturday. The stories will be continued the following week, according to Miss Winifred Bright, children's librarian. More than forty children were in attendance at the story hour last week.
