

### Widen Winnetka Avenue at Curve East of N. T.

The widening of Winnetka avenue at the curve located just to the west of Sheridan road and east of New Trier High school was completed this week and the improved section will be opened for use in the near future.

The widening of the street was authorized by the Winnetka Village council recently and consisted of cut-

ting back the curb on the north side of the curve, permitting a clearer vision of the street on both sides of the curb and allowing more room for vehicles to pass.

The members of the Vista del Lago club troupe entertained their mothers last Saturday at a Sweethearts' party. The boys of the troupe furnished their own entertainment.

### Planting "Pineapples"

Planting "pineapples" in the Mosquito war being conducted by the North Shore Mosquito Abatement district and the Sanitary District of Chicago, is pictured here. These are members of the dynamiting crew which is opening up the channel of the river to insure a free flow of water out of the Skokie. There are also twenty-four men working this week west of Winnetka and Kenilworth cleaning out the channel and also oiling mosquito breeding areas.

### Fairhope Summer School Will Meet at Tufts College

The Fairhope Summer school, which has been held at Greenwich, Conn., the past twelve summers, will be held at Tufts college this year.

The school, which is under the direction of Marietta Johnson, assisted by Charles Rabold, Antoinette Hollister, and a staff of nationally known educators, has been attended by many north shore parents, teachers, social workers and children. In many instances an entire family has attended.

For parents and teachers Mrs. Johnson will have daily lectures and conferences on Child Study and Education. A large share of each day will be given over to folk dancing, music, na-

ture study, and the fine arts and various forms of craft work.

Those in attendance live at the school, which, being just on the outskirts of both Boston and Cambridge, gives the location many added advantages.

Parents may receive detailed information from Charles A. Kinney, of Winnetka, a member of the faculty at the Fairhope Winter school in Alabama.

#### BOOK REVIEW SERMON

"Belief that Matters," a book by the pen of Prof. William Adams Brown and sent out by the Religious Book club, will be reviewed at the morning services at the First Presbyterian church Sunday, May 20, by Dr. George P. Magill, pastor of the church.
