

ACRES In Skokie Valley—

for building homes and fortunes

There's double advantage in buying now on an acreage basis, a piece of land in the North Shore's beautiful valley region—Skokie.

As a place to live, this section offers convenience to the downtown district and the quiet seclusion of the country. Fresh air, sunshine, green fields and leafy trees are here within reach of the city family. Homes in this section are near neighborhoods where first class stores, schools, churches and amusements are plentiful.

Moreover, the new electric line has turned the attention of real estate investors in this direction. It is the last remaining section of the popular North Shore that is yet unsettled. Property values, though comparatively low at present, are bound to rise steadily in the years ahead.

There are few remaining sections of Chicago where you could live so enjoyably and hope for such profit as you can in Skokie Valley. Quinlan & Tyson, specialists in North Shore property for 44 years, recommend Skokie acres to you as a splendid opportunity for good living and investment.

If you are not familiar with this fast growing region, plan soon to investigate. Our representatives will be glad to tell you how you can develop a profitable investment in Skokie acreage, and to show you some of the choicest locations.
