Many New Hats
Are Here to Open the Summer Season in Our Famous Millinery Section

Sports events and travel make demands upon the wardrobe that one's spring clothes—and hats—do not quite fill. So the summer season has come to a considerable importance in a really smart millinery shop—such as this is. Among the new things there are

Several Groups of Catalina Hats at \$8.50

—of Pastel and White Felt

Tailored hats (such as you see illustrated above) with drooping brims, or quite narrow ones. Delicate light colors, to go with the tints of the current sports costume — or the always-suitable snowy white, \$8.50.

—of Panama

With the return to favor of straw, Panama has again come into favor. Finely woven, flexible white panama, trimmed simply with grosgrain ribbon bands, are to be worn both for active sports, and by spectators, \$8.50.

Other Panamas in Good Variety, \$10

—of Silk Ribbon

Soft little crush hats—so simple as to be good for sportswear, yet feminine enough in character to be worn with afternoon clothes. And their crushable quality makes them highly desirable for travel wear, \$8.50.

Graceful Picture Hats of Hairbraid, \$15 and \$16.50

Hairbraids—transparent, soft, festive-looking—are being used this year for many more occasions than for many years past. Here, in this group, are many exquisite black drooping brim hats—with all their style importance in their size and texture; their trimming being almost negligible. An occasional ribbon bow, a sparkling ornament—that is all, \$15 and \$16.50.
