New Channel to Release Skokie Valley Water

HERE is a picture showing some of the outstanding results of the work of the Chicago Sanitary district in opening up the main channels and laterals as the foundation labors of the North Shore Mosquito Abatement district, out in the Skokie.

The stream at the right of the picture is the "river" being opened up through the "Valley" and this section is west of Glencoe, a short distance north of Dundee road. The stream extending in a diagonal course, to the left, is one of the new laterals which has been blown out by dynamite and which will be further opened to connect with the "river" as soon as the work of cleaning out the latter is completed.

The lateral here shown, Engineer Harold Higgins and Mr. McCune of the Sanitary District explained, will completely open one of the worst and most frequently complained of sections in the entire Skokie area. The section which it will open has long been known as a sort of spill-way for sewerage which has been coming down from across the Lake county line and here dumped out to filter away through the great Skokie.

**Free Lot Operator
Gets Year Sentence
and Fine of \$5,000**

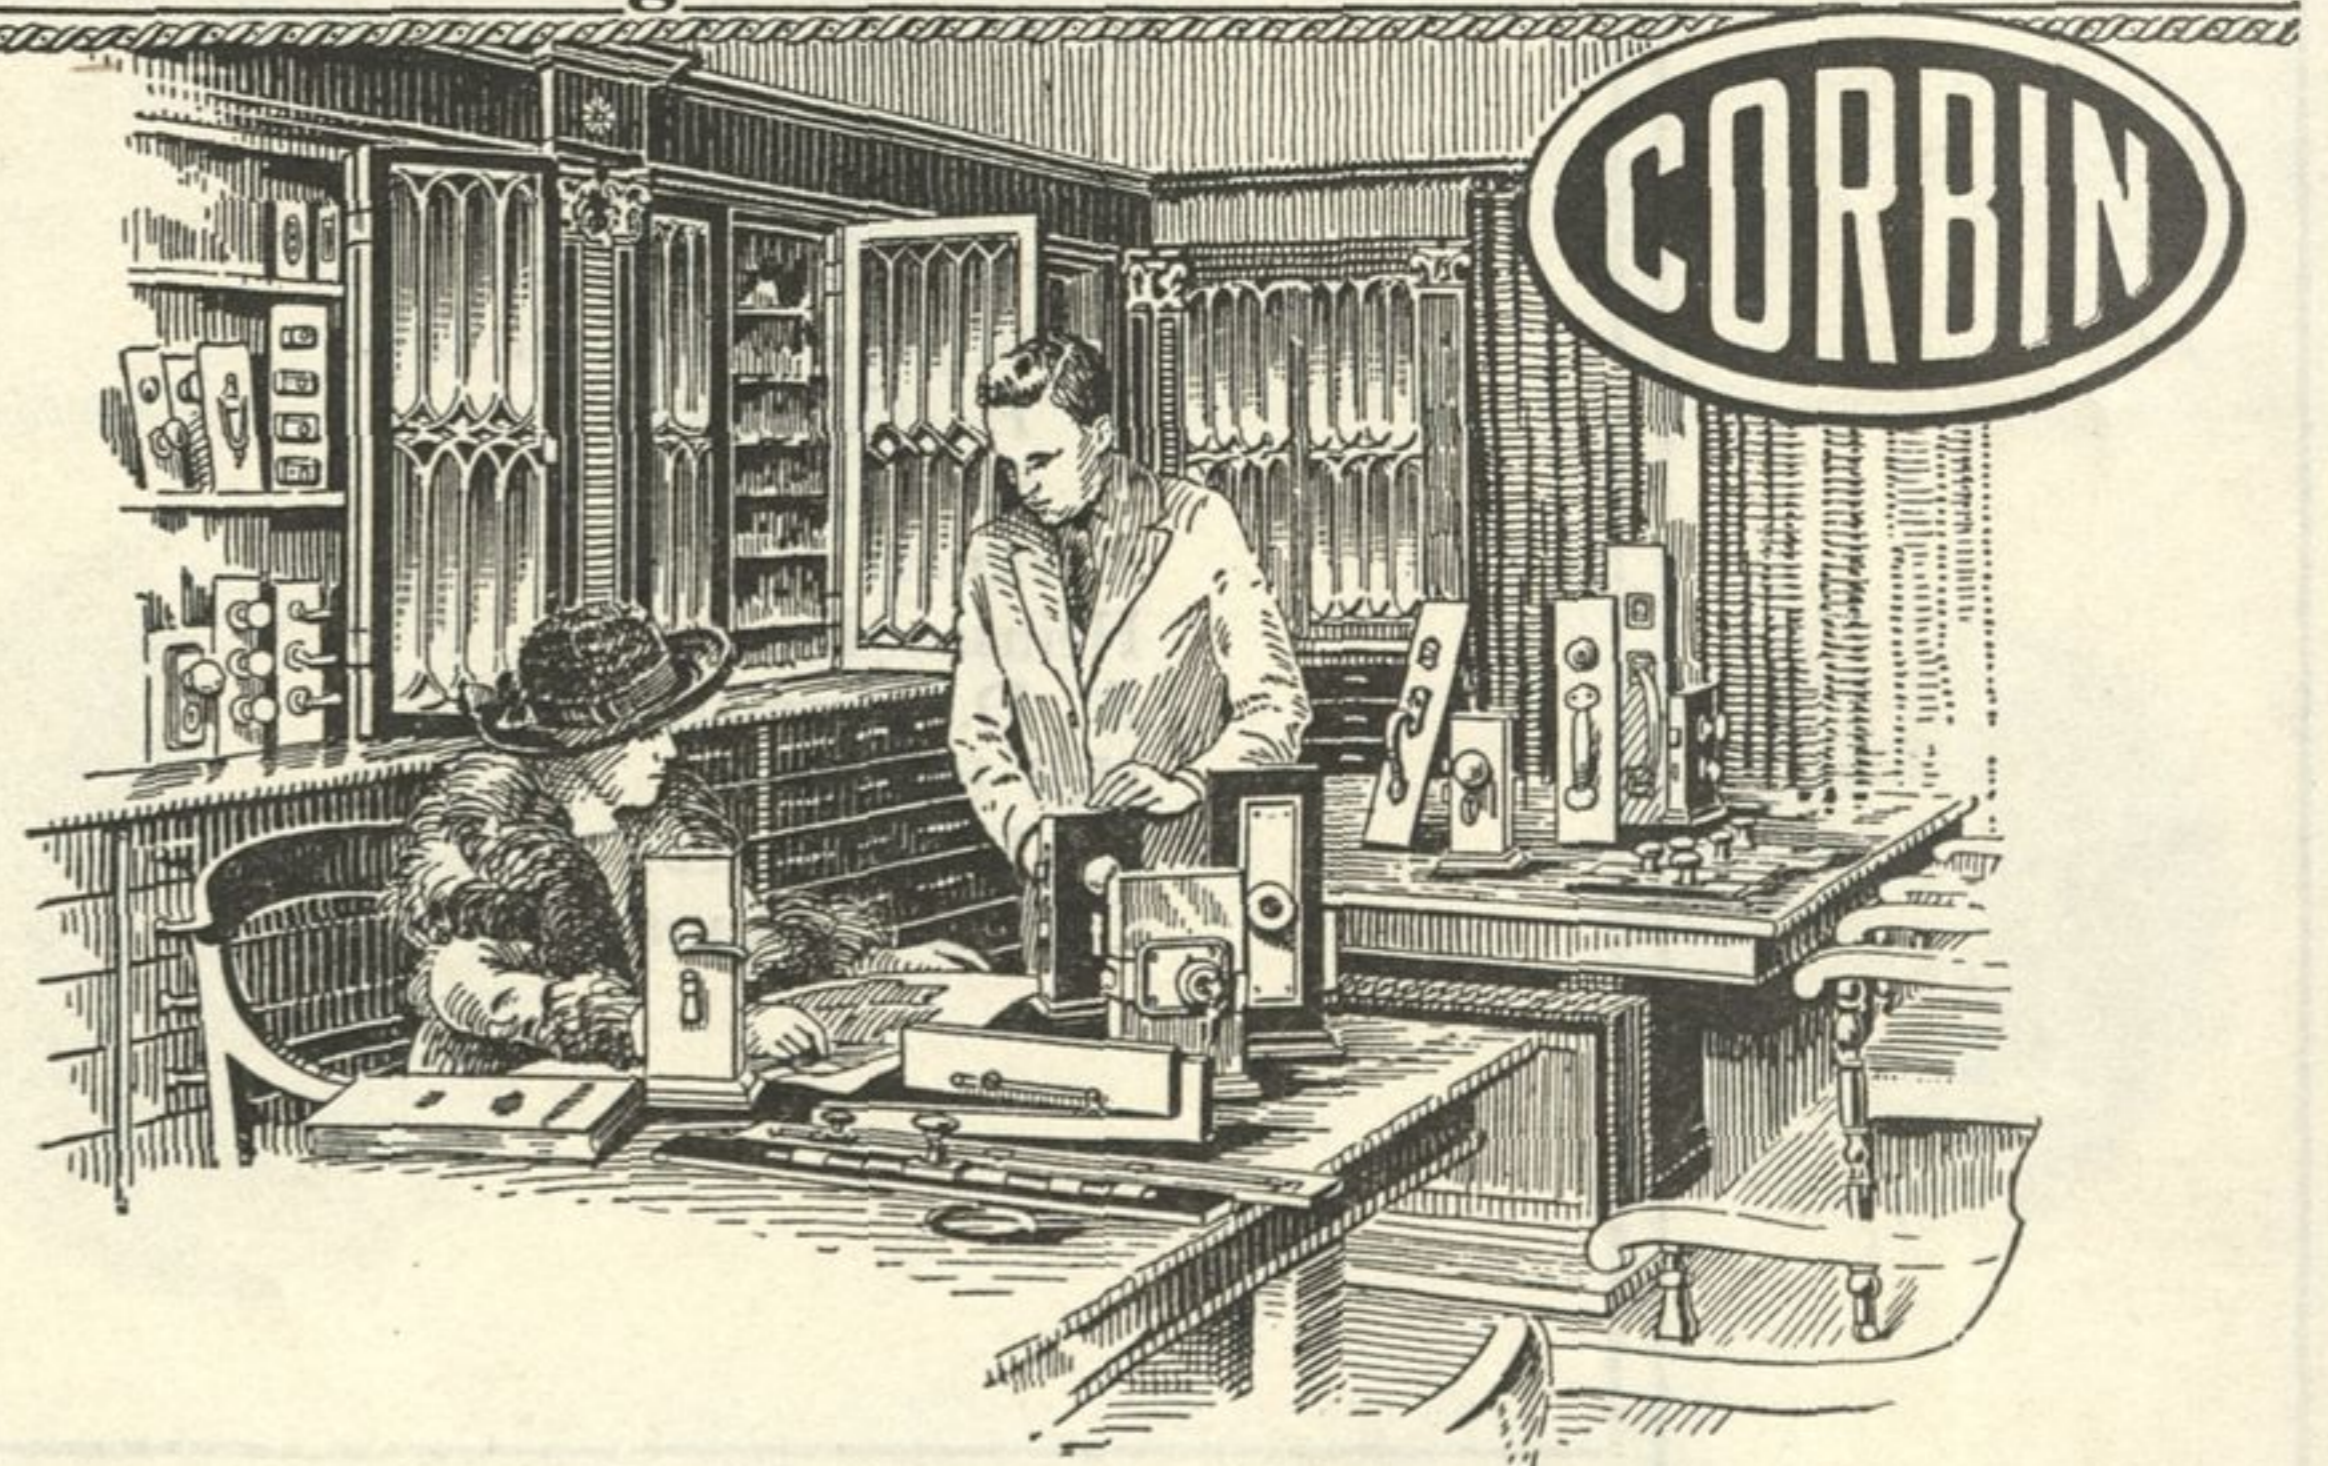

One year and one day in the federal prison at Leavenworth, Kansas, and a fine of \$5,000.00 is the penalty imposed on the operator of a "free lot scheme" for the sale of real estate in a sentence passed in Omaha, Nebraska, by Judge Woodworth, of the United States District court.

The sentence was imposed on Harry H. Cowl, president of the "United States Suburban Home Developers, Inc," who was found guilty of using the mails to defraud in connection with sales of building lots near Ralston, Nebraska, an Omaha suburb.

John W. Weinstein, sales manager of the firm, was sentenced to six months in the county jail and fined \$1,000.00.

Two salesmen, who entered pleas of **nolle-contendere**, were fined \$100.00 each with thirty days to pay. The convicted men have until June 29 for appeal before execution of the sentence.
