### Pierce-Arrow Offers Service on Flat Rate

The Pierce-Arrow Motor car company reports the largest sales month in May in the history of the company, the new model 81 vehicle having attracted world-wide attention.

The company has an exclusive service feature connected with the sale of its vehicles in that it extends to the owners of other makes of motor cars the advantages of Pierce-Arrow service stations where there are to be found the most skilled mechanics in the industry and the most modern and up-to-date tools and equipment for the servicing of all makes of automobiles. All work is done on flat rate basis so that an owner may know exactly what a job will cost before going ahead with the work. In this way the motor car owner has all the advantages from the standpoint of expert workmanship. The flat rate prices are used for not only the Pierce-Arrow but for other makes of cars as well, and are much more economical than those found

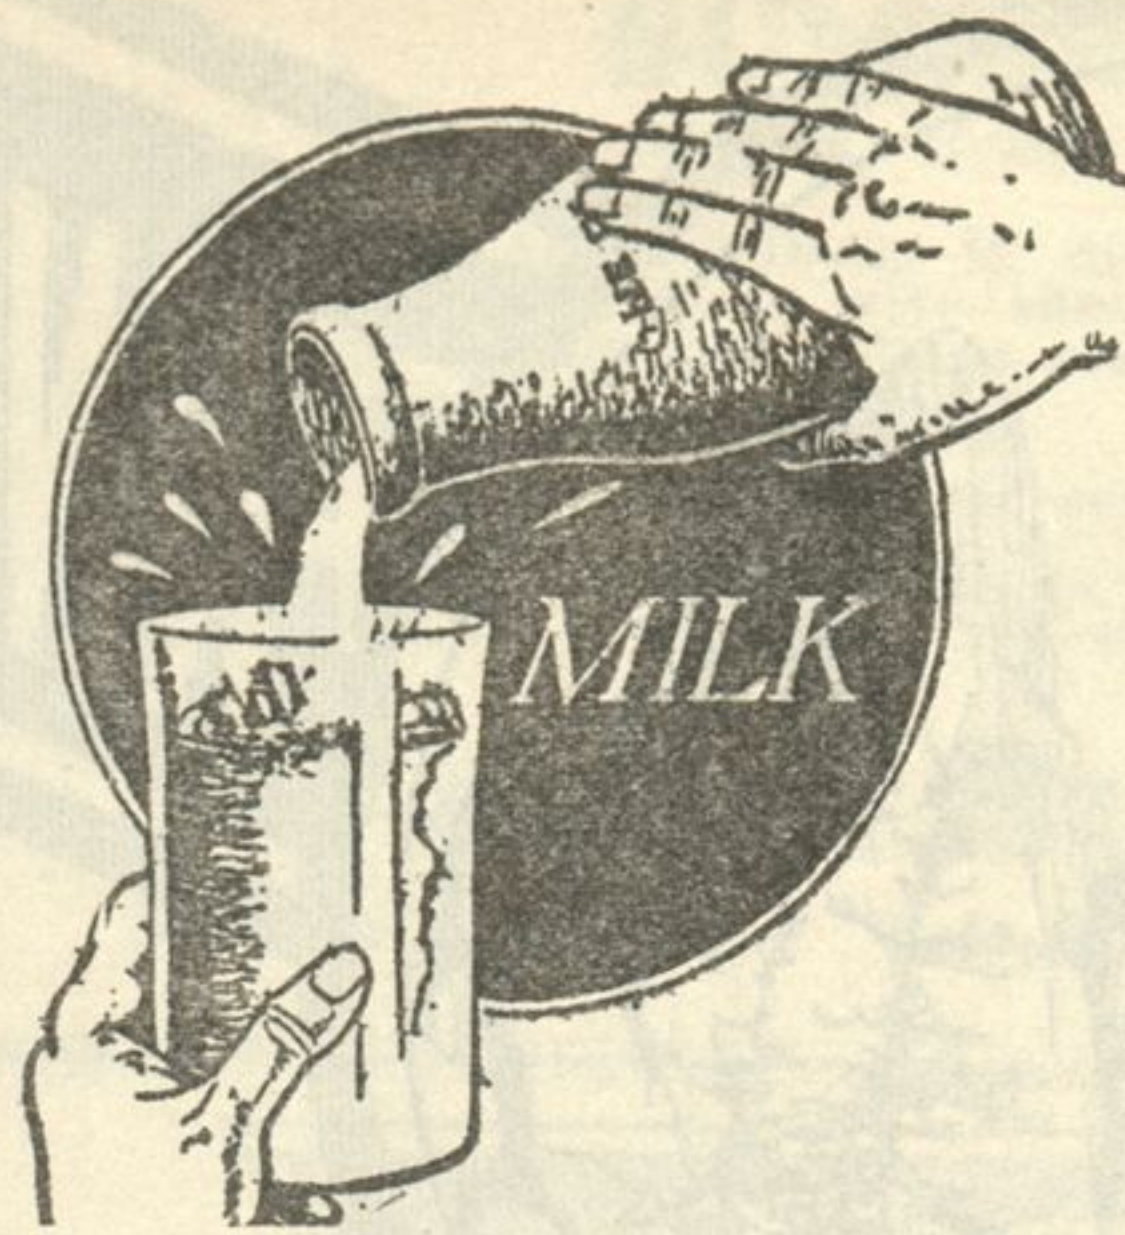

elsewhere where the same grade of work might be obtained.

The north shore dealer of the Pierce-Arrow company is James G. Barber, who maintains at 1508 Elmwood avenue, Evanston, one of the up-to-date service stations, and, unlike the medical profession, these service stations make no charge for consultations.
