

**Gas-Electric Locomotive
Draws C. and N. W. Train**

North shore residents who last Monday morning witnessed a special train speeding northward on the Chicago and Northwestern railroad, drawn by a huge, modern gas-electric motor engine and conveying in the three coaches which it pulled the various members of the road's official family, saw visions of the long predicted electrification of suburban trains.

There have also been rumors, it is said, that when this service does come, it is not improbable that the terminal of the Northwestern's suburban electric trains will be located on State street, just north of the Chicago river and adjacent to the shopping center.

The North Western electric train which passed through the north shore last Monday, was en route to Milwaukee.

Its high speed, comparatively quiet

PLAY TENNIS MATCHES

Boys and girls of the Skokie Country club and Indian Hill Golf club will clash in league tennis matches at the Indian Hill club Sunday afternoon, June 24, at 2:30 o'clock. Seats will be reserved for members and their guests without charge, it is announced.

Mr. and Mrs. Sidney Ball and their daughter, Adelaide, formerly of Kenilworth and now of Indian Hill, have just returned from the east where they attended the commencement exercises of Wells college. Paisley Ball was one of the graduates.

operation and the absence of smoke which features the locomotive, were approved by north shore residents, and many predict that this may become a regular feature of the service sooner than many anticipate—perhaps in time for the coming World's Fair.

**Flowers Enhance Windows
of Winnetka Station**

To the thoughtful, public-spirited members of the Winnetka Garden club, residents of the village who ride on the Chicago and North Western trains and others who pass through the village daily are indebted for the bright and cheerful exterior of the Winnetka station.

In all of the windows on the west side of the depot, the Winnetka Garden club has placed substantial, well-painted flower boxes, each of which is filled with pretty blooming foliage, and vines, with most pleasing effect.

This is a plan which other north shore Garden clubs may emulate and judging from the covetous manner in which Agent F. W. Anhalt's fellow agents, up and down the line, are viewing the pretty posies in his windows, they will gladly welcome a movement of this kind by their local clubs.

Writer Weds

Mrs. Levering Cartwright, who, before her marriage Sunday, June 10, to Levering Cartwright of Evanston, was Miss Ruth Russell of Chicago, has not only gained recognition in the newspaper field and as a short story writer, but has achieved prominence as a pianist and composer. As a school girl of 14 years she wrote a Greek play, "Menides" which was staged by the Lewis-Champlin school for the benefit of its art fund. She also composed the chorus numbers for this and played the piano accompaniment. Mrs. Bruno Steindel, as her teacher, featured her in many piano recitals. During her course at Northwestern university Miss Russell edited a musical column for a newspaper. Mrs. Cartwright will continue her work on the editorial staff of the Chicago Daily News.
