

# Let's get at the real truth about modern OIL HEAT

By R. W. Lapham

**I**F you knew a man who still doubted the value and happiness, for his family, in owning a car, you'd want to convince him. That's the way I feel about the comfort of modern oil heat in modern homes.

You'd be amazed if you knew, as I know, how many families enjoy—every year—the heating comfort you're hoping to have some day.

Automatic oil heat does not cut heating bills in half. In most KLEEN-HEETed homes I know, heating bills are no higher than if good grade coal were burned; in some homes they're less.

But, Man! The comfort enjoyed in a KLEEN-HEETed home just can't be compared with coal heat. Not even a millionaire, with all kinds of servants, can have finer heat.

Automatic oil heat needs some attention, of course. So does your radio set, or your car, or any other modern equipment your family enjoys. And KLEEN-HEET owners spend so little time, in this way, that it's negligible.

Every year an amazing number of people decide in favor of this modern heat. They do it to get comfort you can't get in any other way.

**WE'D** like to give you some facts and figures—right now. Drop us a card, or telephone: Greenleaf 5120 or Winnetka 695.

## St. Francis Grounds Turned to Carnival Place

(Photo by Bernie)

Happy throngs of children and grownups gaily decked booths gave a festive atmosphere to the east grounds of St. Francis hospital Saturday afternoon. The occasion was the first annual festival of the St. Francis foundation. A glimpse of the festive scene is shown below, with the luncheon booth in the foreground. In the upper picture is seen the doll booth with some of the children who surrounded it all afternoon. This booth was in charge of Mrs. N. Picard and Mrs. R. J. Sackley, assisted by Mrs. George Picard, Shirley Cawkwell and Priscilla Jones.

## North Shore Line Announces Special Sunday Excursions

Special excursion trains are being operated by the Chicago North Shore and Milwaukee railroad each Sunday during the summer months between Chicago and Kenosha, Racine and Milwaukee, Wis. The excursion specials were inaugurated Sunday, June 17, with trains leaving Chicago and Milwaukee early in the morning and making the return trips late in the evening.

The northbound excursion train leaves Roosevelt road at 8:25 (Chicago time) each Sunday morning, receiving passengers at Adams and Wabash station in the loop at 8:30; Grand avenue at 8:35; Wilson avenue at 8:50; How-

ard street at 8:57, and Dempster street, Niles Center, at 9:04. It will arrive at Kenosha at 8:52 (Standard time); Racine at 9:07, and Milwaukee terminal at 9:40. Standard time in Wisconsin cities gives visitors from Chicago an extra hour advantage on the northbound trip.

On the return trip the excursion special leaves Milwaukee downtown terminal, Sixth and Michigan streets, Sunday night at 7:15 (Standard time); Racine at 7:49, and Kenosha at 8 o'clock, arriving in the Chicago loop at 10:25 (Chicago time).

### CHRISTIAN SCIENCE SUBJECT

"Christian Science" will be the subject at the services of The First Church of Christ, Scientist, in Winnetka, Sunday morning, June 24, at 11 o'clock.

## Children Enjoy It!

Keep the children in perfect health with pure milk.—Milk is a child's best food—give them more of it.
