

Northwestern Student Naval Officers Leave on Cruise to Halifax

Fifty-five young men, student officers of the Northwestern Naval unit, left Evanston at 4 o'clock Tuesday afternoon, June 19, for Boston, Mass., for a two weeks' naval cruise. All expenses for the trip are paid by the Navy department.

The students will board the battleship "Wyoming" at Boston and immediately proceed to Halifax, Nova Scotia. After a three day visit at that port they will proceed to Portland, Me., for a three day visit before returning to Boston on July 4. They will leave the "Wyoming" on July 5 when they will be furnished sufficient funds for the return trip to Evanston, which trip they will be allowed to make at their convenience.

This cruise is in the nature of a reward for their work in the course of naval science and tactics during the past year, and will give them an opportunity to observe in actual practice some of the things about which they have been studying. During the cruise they will be under the supervision of officers of the regular Navy and trained in the duties of junior officers. This training will include the operation and actual firing of the 5-inch guns of the "Wyoming."
