### Dr. Levick Retires as Successor Takes Post

Dr. Margaret Newlin Levick, who has been a children's specialist in Winnetka for a number of years, has announced that she is retiring from her practice. Dr. Levick has sold her house and will go to California to live.

In addition to specializing in children's diseases, Dr. Levick was a general practitioner and checked New Trier students during the physical examinations. She was also prominent in many civic movements.

Dr. Levick has introduced Dr. Katherine Knight True who will occupy her offices in the Humphrey building, 833 Elm street, Winnetka.

Mr. and Mrs. Lawrence Cole of 1111 Cherry street are in New York and are expected to return home Monday, June 25. Mrs. Cole is attending the Vassar reunion of her class of 1915.

### Lectures, Recitals of Summer Session Open to the Public

Lectures and recitals of interest to the general public and student alike are planned as weekly features of the Northwestern university summer school, by Dr. Clyde L. Grose, director of the summer session. In contrast to the policy of former years, most of the lectures will be given without an admission charge.

Among the widely known speakers who will be heard is Dr. William Montgomery McGovern, distinguished orientalist, who will speak Thursday and Friday, June 28 and 29, at Fisk hall. His first lecture will be "To Lhasa in Disguise," and the second, "Secrets of Amazonian Jungles." His genius for foreign tongues allowed him to find his way into the sacred city of Lhasa in Tibet five years ago, and his experiences as told in the first of the lectures attracted wide attention.

#### To Talk on Politics

July 2 Prof. A. R. Hatton of the Northwestern political science department, the foremost authority on municipal government, will lecture on "Parties and Platforms of 1928."

He will be followed by Owen Lattimore, son-in-law of Dean Thomas F. Holgate, who will lecture on "Caravan Routes in Mongolia and Turkestan." His wife, Eleanor Holgate Lattimore, will also speak from the experiences she had during several years' residence in China.

Later Count Otto Von Stolberg, foremost living authority on Bismarck, will speak on "Bismarck and His American Friends." He is now in Washington collecting material for further writing about the famous German chancellor.

#### To Present Recitals

Schools of music and speech will present recital programs each week which also will be open to the public. Three visiting lecturers will appear under the auspices of the school of education: J. M. Artman, general secretary of the Religious Education association; Paul H. Vieth, director of research of the International Council of Religious Education; and Luther A. Weigle, dean of the Yale divinity school.

Several other features are planned by Dr. Grose to increase the attractiveness of the summer term. Educational, cultural and commercial tours to places in Chicago, such as the Field museum, the Board of Trade, the stockyards, the Chicago libraries, the steel mills, Hull house, Lake Geneva and Yerkes observatory, will be held each week under the direction of Prof. Leon C. Kranz of the physical education department. Tennis and golf tournaments will be conducted, and Ravinia is expected to prove the attraction for students it has been in the past.

Registration in the college of liberal arts, the graduate school, the schools of education, law, commerce and journalism will be held Monday, and in music and speech will start Saturday and continue Monday. Numerous early inquiries about the course indicate the registration will probably surpass the 2,000 of last year. Terms are for six and eight weeks.

#### WOULD RETAIN ENGINEER

An ordinance was introduced at the Winnetka Village council meeting Tuesday evening authorizing the employment of a consulting engineer in the grade separation movement.

Miss Mary Hewes and Miss Charlotte Wittstein of the Winnetka Public library left last Sunday to spend their vacation in Colorado. They will be gone about a month.

## Sports That Cause No Eye-Strain

It has been given out by good medical authority that sports such as tennis, golf and swimming are especially beneficial as they cause no eyestrain. To this we can safely add another: Saving!

Although it may require vigorous exercising there is absolutely no eye-strain in that famous American indoor and out-door sport called saving. Best of all, the odds are all in your favor. You may establish new records if you wish or be satisfied with the average but whatever the result it means definite, influential
