Commissioners Stress Importance of Summer Scout Program

Scout commissioners of the North Shore area are co-operating with the Scoutmasters in development of a stronger summer-time program in Scouting. Considerable stress is given to getting Scouts into summer camps for short periods. There are many other activities in the scouting leisure time program which are developmental to boy life. Scouts are urged to take advantage of learn-to-swim campaigns and other community projects carried on by recreational boards and others in the various towns.

Health and Safety

Health and safety is one of the ob-

jectives of the Boy Scout program. But Scouts are not only concerned about their own health and safety but a nation-wide move is on to help insure the safety of young children. In a bulletin issued from local Scout headquarters last week, Scout Executive Walter McPeck asks every Scout to help to build a better understanding and appreciation of the importance of safety of children at crossings. Special warning is given to people who are walking along highways.

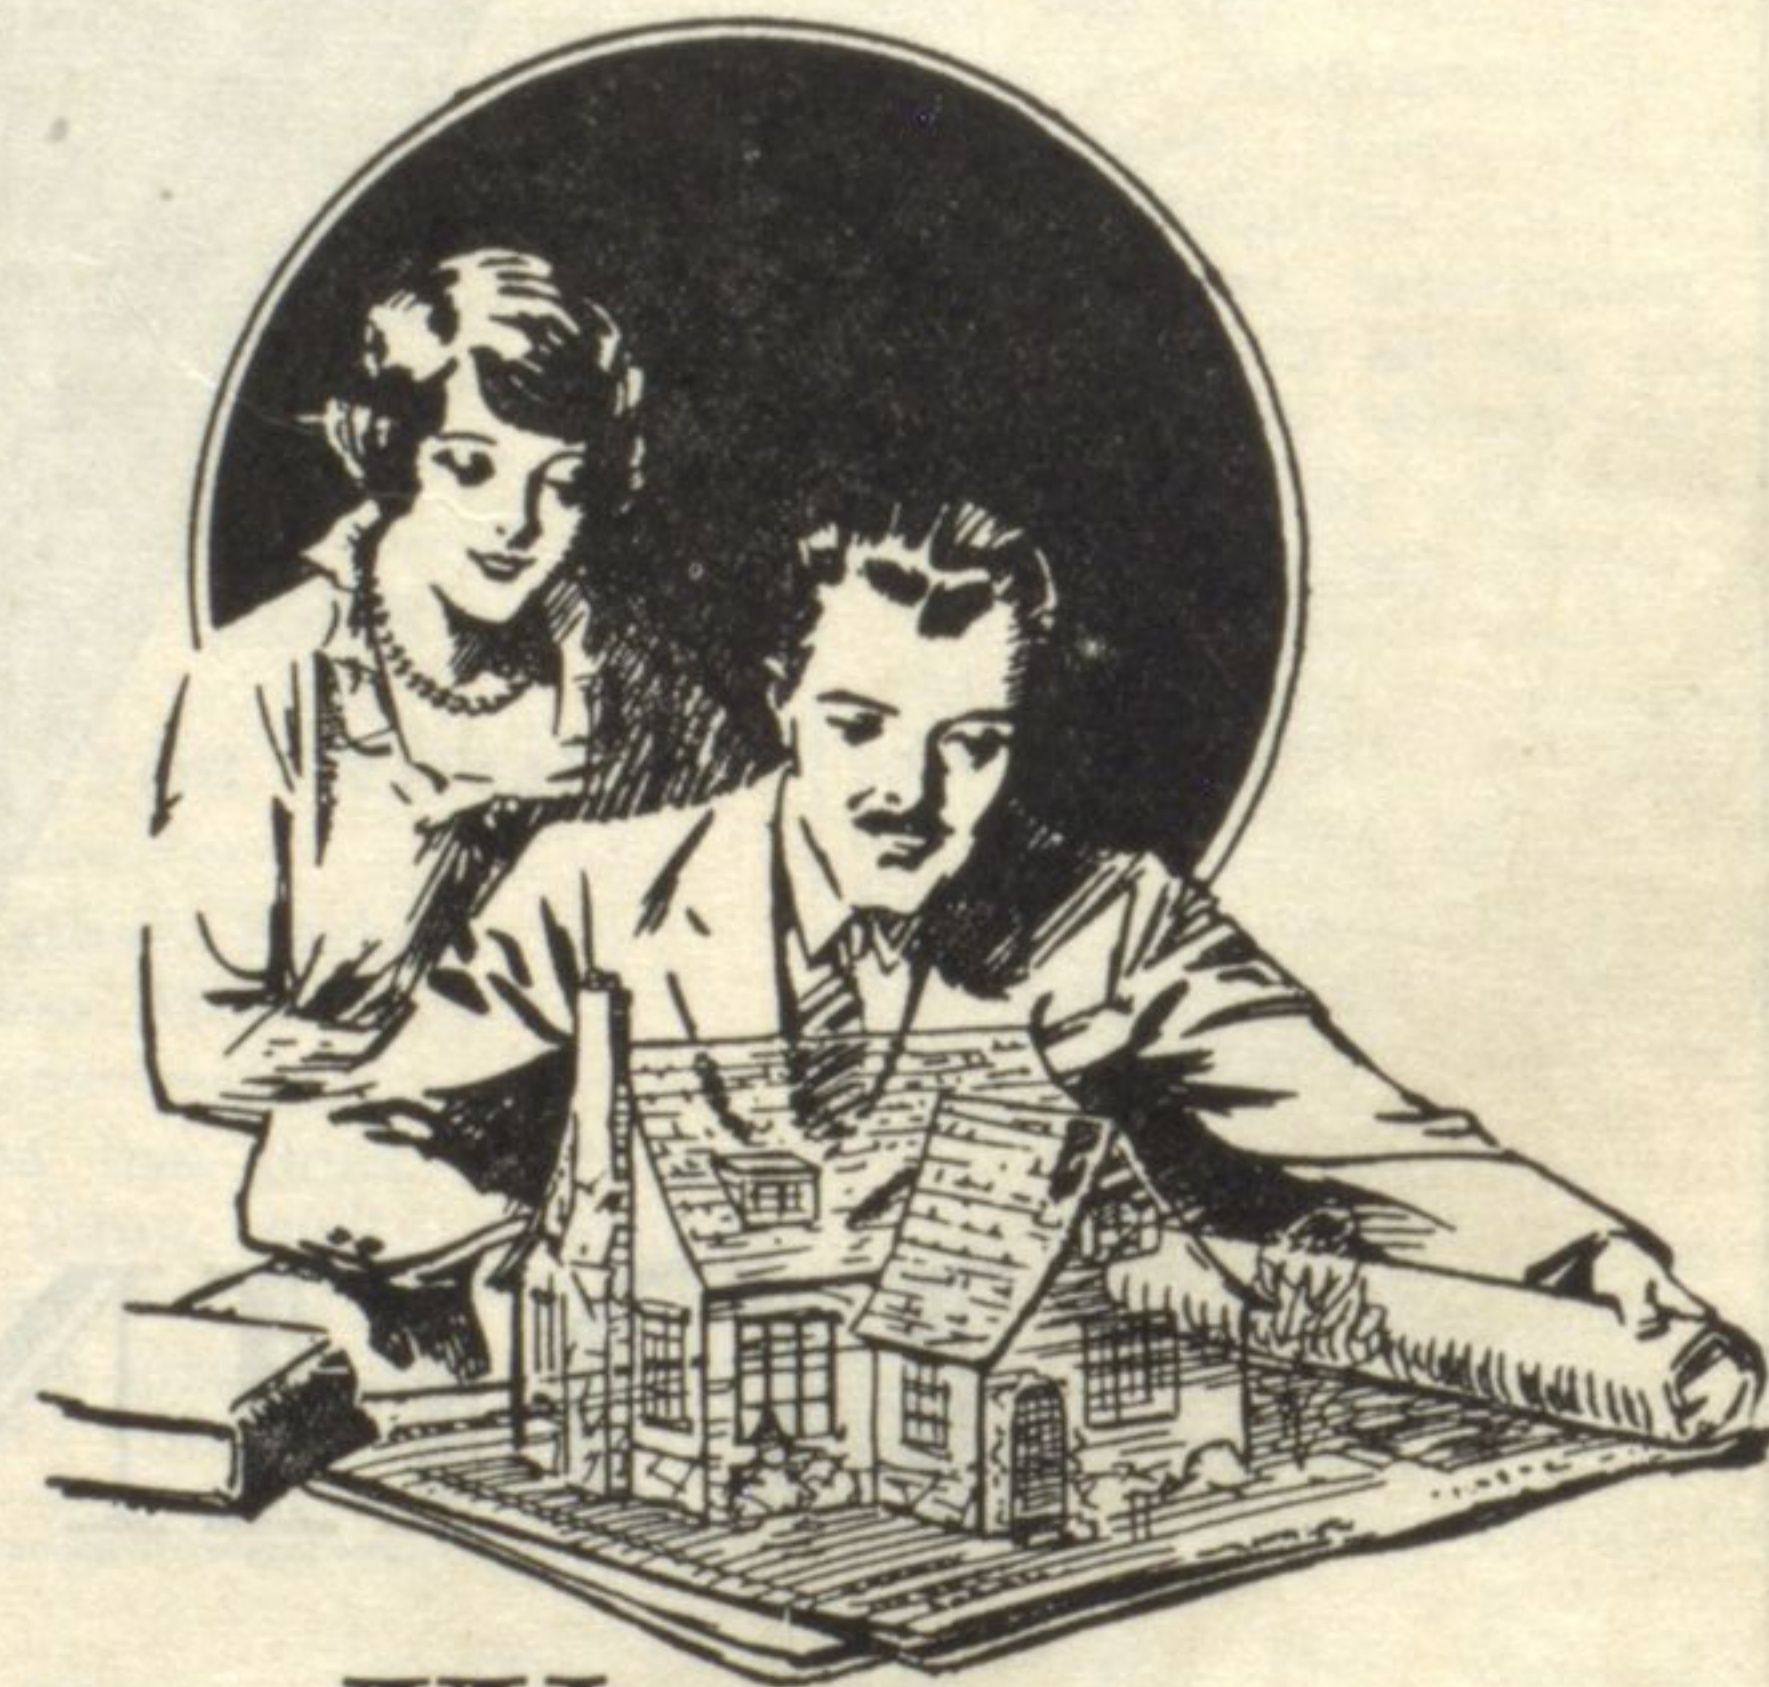

Hear From Dan Beard

There is probably no one man in America more loved by American boys than "Uncle Dan Beard." Thursday, June 21, Daniel Carter Beard, national Scout commissioner, celebrated his 78th birthday. He is spending the summer in personal charge of his own camp at Rowlands, Pa. Scout Executive Walter McPeck of the North Shore Area council, Boy Scouts of America, received the following telegram last Friday morning: "Good Scouting, good luck and love to the boys and officials of the North Shore Area council, from their national Scout commissioner Dan Beard." This telegram came in response to a night letter sent him, reading: "927 Scouts, their leaders, friends and parents send you greetings on your birthday. American boys everywhere look up to you, admire you, love you and rejoice with you as you grow younger."
