

**GUEST OF QUEEN**

Dolores Del Rio, movie star from across the Rio Grande, will be a guest of the queen of Spain at the close of her forthcoming European trip. She will make no pictures while in Europe, it is announced.

**NEW HOTEL HEAD**

Management of the Evanston hotel went into the charge yesterday of James L. Alexander, who received his experience in hotel management in England. For twelve years he was connected with the Savoy hotel in London, working through all departments, and then with the Park Lane hotel, also in London, in a managerial capacity.

A. B. Andrews, one of the new owners of the hotel who took it over last spring, states that the policy under the present management will be "to make the hotel one of the most attractive and homelike residential hotels on the north shore." The hotel's unique position, open spaces and layout make this possible, he points out.

**SHUBERT THEATER**

Beginning September 1, the Woods will be a Shubert theater.

**"The Station Master" on Playhouse Bill for Week**

One of the most extraordinary motion pictures yet produced by that world famous organization, the Moscow Art Theatre players, will be shown at the Playhouse beginning Sunday, August 5, for one week. It is "The Station Master," a foot-in-the-soil drama of Russian life as interpreted in the novel of the same name by Alexander Pushkin. It is another of those tragic masterpieces the Russians are so fond of and so expert at depicting.

Ivan Moskvin, over whom America went into critical rhapsodies about a year ago, portrays the leading character role, that of a dull, inconspicuous station master whose daughter who is also in the picture, makes a eyes. Vera Melanovskaya, the charming and beautiful actress who gave such an excellent performance as the bride in "The Legend of the Bear's Wedding," plays the leading feminine role. The supporting cast is made up of other equally famous members of the Moscow Art Theatre group.

As an added attraction the Playhouse will present Adolphe Menjou's picture, "The King on Main Street." With Menjou in the cast are William Collier, Jr., and Bessie Love.

**PLAY CLUB CHAMPIONSHIP**

The Club championship will be at stake in the play at the Wilmette Golf club Saturday, August 4. Other important events scheduled for this Saturday are the first round of the Roseman trophy and the semi-final round in the Cunningham trophy. Prize events for the various Classes will feature the play this Sunday.

Miss Flo McFarland is now playing the devoted juggler's wife in "Excess Baggage" at the Garrick, succeeding Miss Pauline MacLean. Miss McFarland was formerly in the ensemble of "Good News."

"Manhattan Mary," which was to have opened at the Garrick September 2, will follow the Greenwich Village Follies in the Four Cohans, it is announced.

**T. J. Crowes Fall Before Onslaught of Winnetka Nine**

The strong Winnetka baseball team traveled to Welles park, Chicago, Friday evening of last week, and handed the T. J. Crowe's a set-back by a score of 13 to 11. The Crowe's are conceded to be the strongest travelling team in Chicago, and have scored victories over such teams as Aurora, The Litzingers, Belle Plaines, "Hippo" Vaughn's All Chicagos, and numerous other first string semi-pro outfits.

The game last Friday was really a slugging affair, and the locals simply toe holed the offerings of Dutch Grimme for a collection of nineteen base hits. Bill Carey accounted for three in the first inning, when he doubled with the bases loaded. Spectacular fielding by Izard, Runfeldt and Kadison staved off defeat for the locals in the last few innings.

Thursday evening, August 9, the Winnetkans will journey to Welles park to take on the Strong Hollens A. C., rated one of the best teams in the Midwest league.

Sunday Winnetka will engage The Woodlawn A. C.'s at the Skokie Playfield. A large crowd is expected to turn out and witness the game and cheer the rampaging local outfit to more victories.

**ROTARIANS HEAR CHEMIST**

Dr. F. W. Upson, head of the department of chemistry at the University of Nebraska, spoke at the luncheon of the Wilmette Rotary club Wednesday of this week. Dr. Upson is attending the Institute of Chemistry at Northwestern university.

Mr. and Mrs. Ferdinand Wolter, Jr. of 1377 Scott avenue have spent the past two weeks on a short vacation trip to Stone Lake, Wis.

Mrs. J. Henry Carry-Carr, 1051 Spruce street, entertained a small group of friends last Friday at a luncheon followed by bridge.
