A North Shore Beauty Spot

(Photo by Lehle)

Herewith a picture of one of the first north shore rock gardens. Mrs. Carl S. Miner's garden, 344 St. Palos road, Glencoe, is very complete and original in its design, embracing a water garden as well as a rock garden. Alpine and rock plants and small evergreens of the same character make altogether a very unique and novel effect. There is also a very remarkable collection of saxifrages. This is among the rock gardens always visited by members of garden clubs from other places.
