Hubert Burnham Designs Chicago Navy Memorial

Hubert Burnham, Evanston architect, has completed the plans for the navy memorial to be erected on the lake front at the west end of Navy Pier (formerly the Municipal Pier) in Chicago.

The memorial is designed to express Chicago's importance in the national navy establishment, and a fund of \$200,000 will be sought for its erection. The necessary land has been allocated at the pier. It is hoped to dedicate the site with appropriate ceremonies Navy Day, Oct. 27.

The memorial is intended both to remember those who have given their lives in the service of the nation and to serve as a patriotic inspiration to the rising generation, as well as to testify to public appreciation of those who served and survived.

Mrs. John Vennema, Marcel and John Jr. will spend the last two weeks of August at Ephraim, Wis. where they have a cottage. Mr. Vennema sailed Saturday, August 4 on the S. S. Rotterdam for England, Holland and France. Mr. Vennema is counsel to the Netherlands. He succeeds Mrs. George Birkoff whose daughter is Mrs. Ira C. Darling of Kenilworth.

Mrs. Walter Knoop of 221 Warwick road, Kenilworth, entertained eight guests at luncheon and bridge on Monday, August 6, at Skokie Country club.

Churches to Have Important Part in 1933 Centennial

The board of trustees of the Chicago World's Fair 1933 Centennial Celebration has announced the appointment of George W. Dixon as chairman of the Committee on Co-operation of Churches. The work of this committee has not yet been defined, but it was the purpose of the board to provide first for the co-operation of the churches of Chicago and America in the organization of the Fair, and second for the co-operation of all the faiths of all humanity in a great new World's Parliament of Religions.

"The opportunity before this committee is so vast," said Mr. Dixon, "that I am almost overwhelmed by the responsibility. Of course I shall have in it all only the responsibility of an organizer. If the churches of America are to co-operate for the Fair, that must be achieved under the leadership of great figures in the American church. Likewise, if there is to be a great meeting of the religiously minded men and women of our time in a common devotion to reverence and charity, that must be accomplished under the leadership of the greatest figures in the entire religious world.

"The trustees will proceed deliberately in choosing the members of the committee. I have no idea that can be accomplished short of several months. In the meantime we will have a modest office at the general headquarters of the Fair and thus provide a common meeting ground for church men and women who may desire to keep in touch with the Centennial."

Dr. Rufus Stolp and Mr. Alden Sears of Kenilworth have spent the last week fishing at Bass Lake near Gogibick, Mich.

SILENT AUTOMATIC

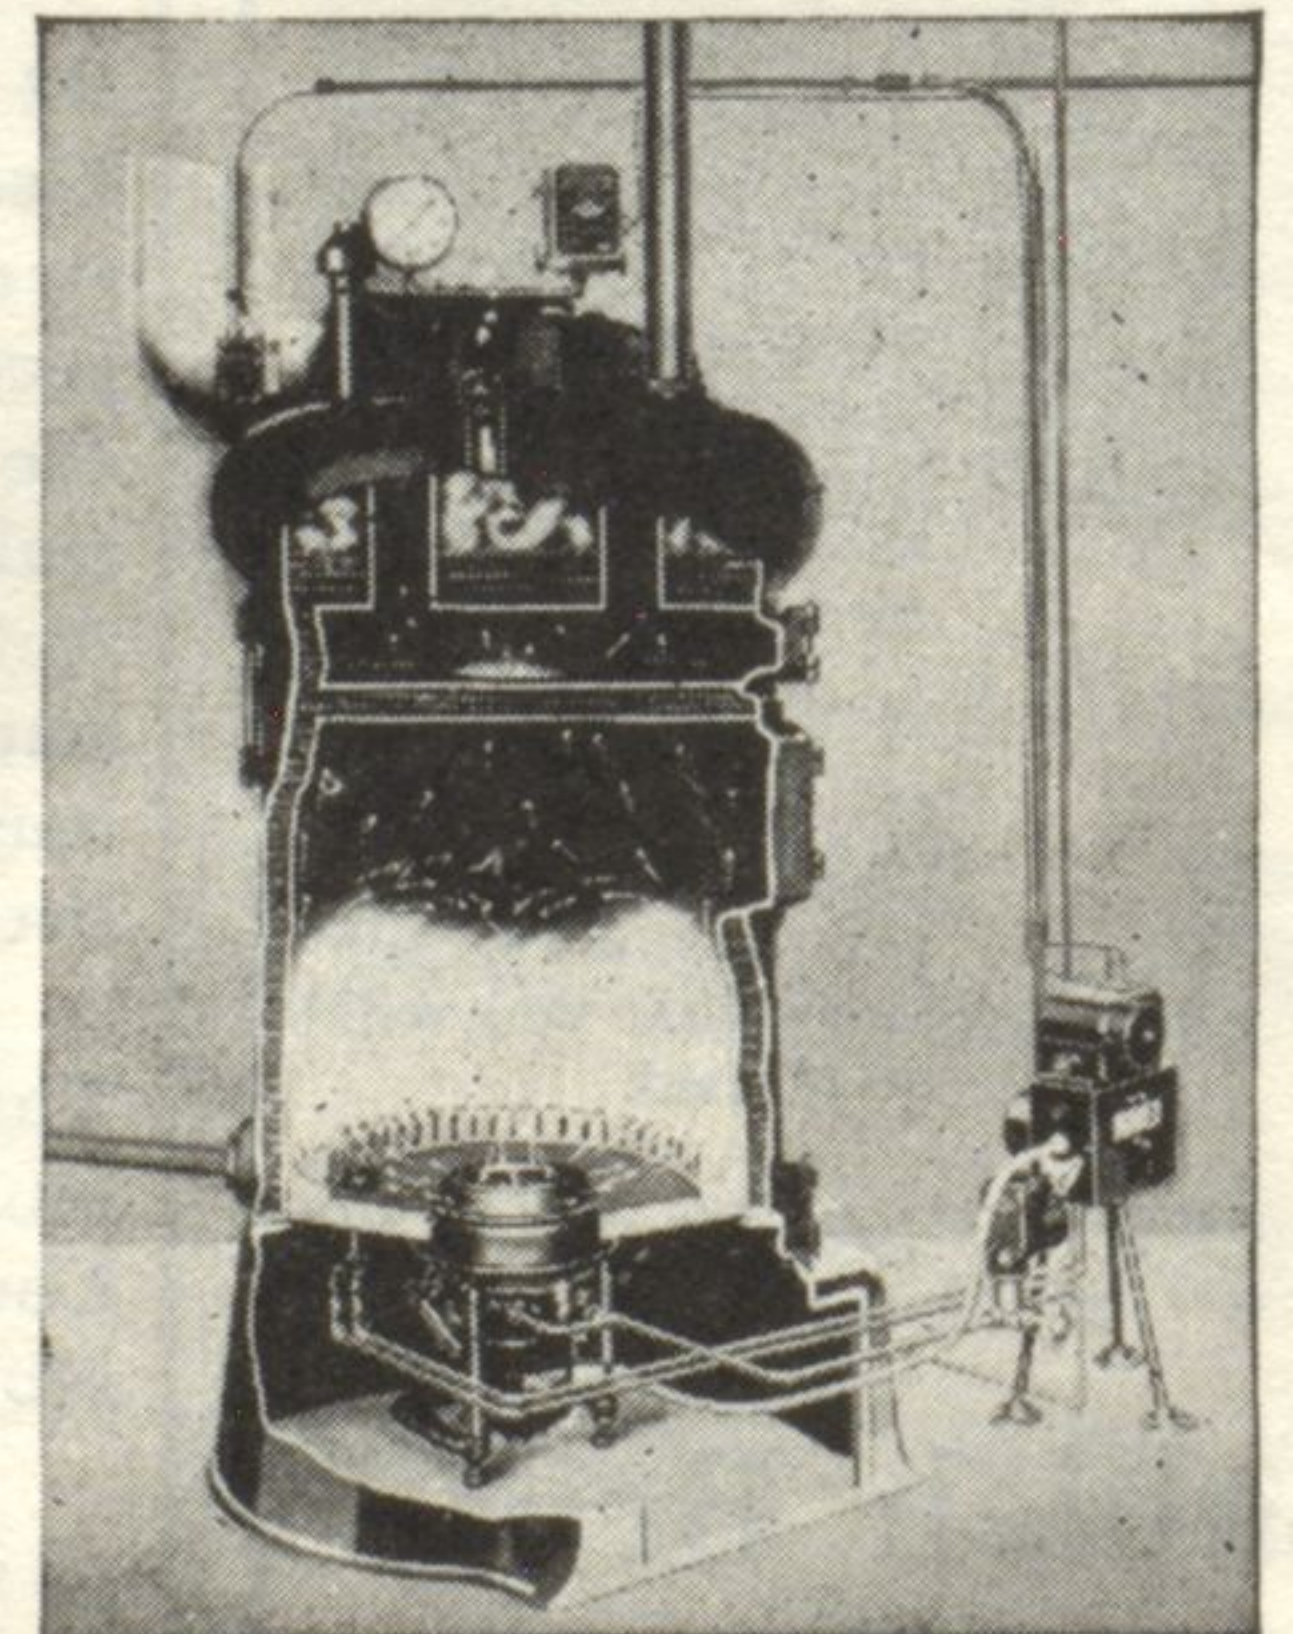

THE NOISELESS OIL BURNER

There is only one SILENT AUTOMATIC

Burning Oil-Gas in the manner found in the SILENT AUTOMATIC is quite different than burning oil. Confusion on this point is very common.

We ask you to let us explain this to you so you will know why SILENT AUTOMATIC is in a field all by itself.

The principle of burning Oil-gas and flame placement—is the thing that makes SILENT AUTOMATIC clean, dependable heating—the very thing you are looking for.
