

Something To Think About

There is only one

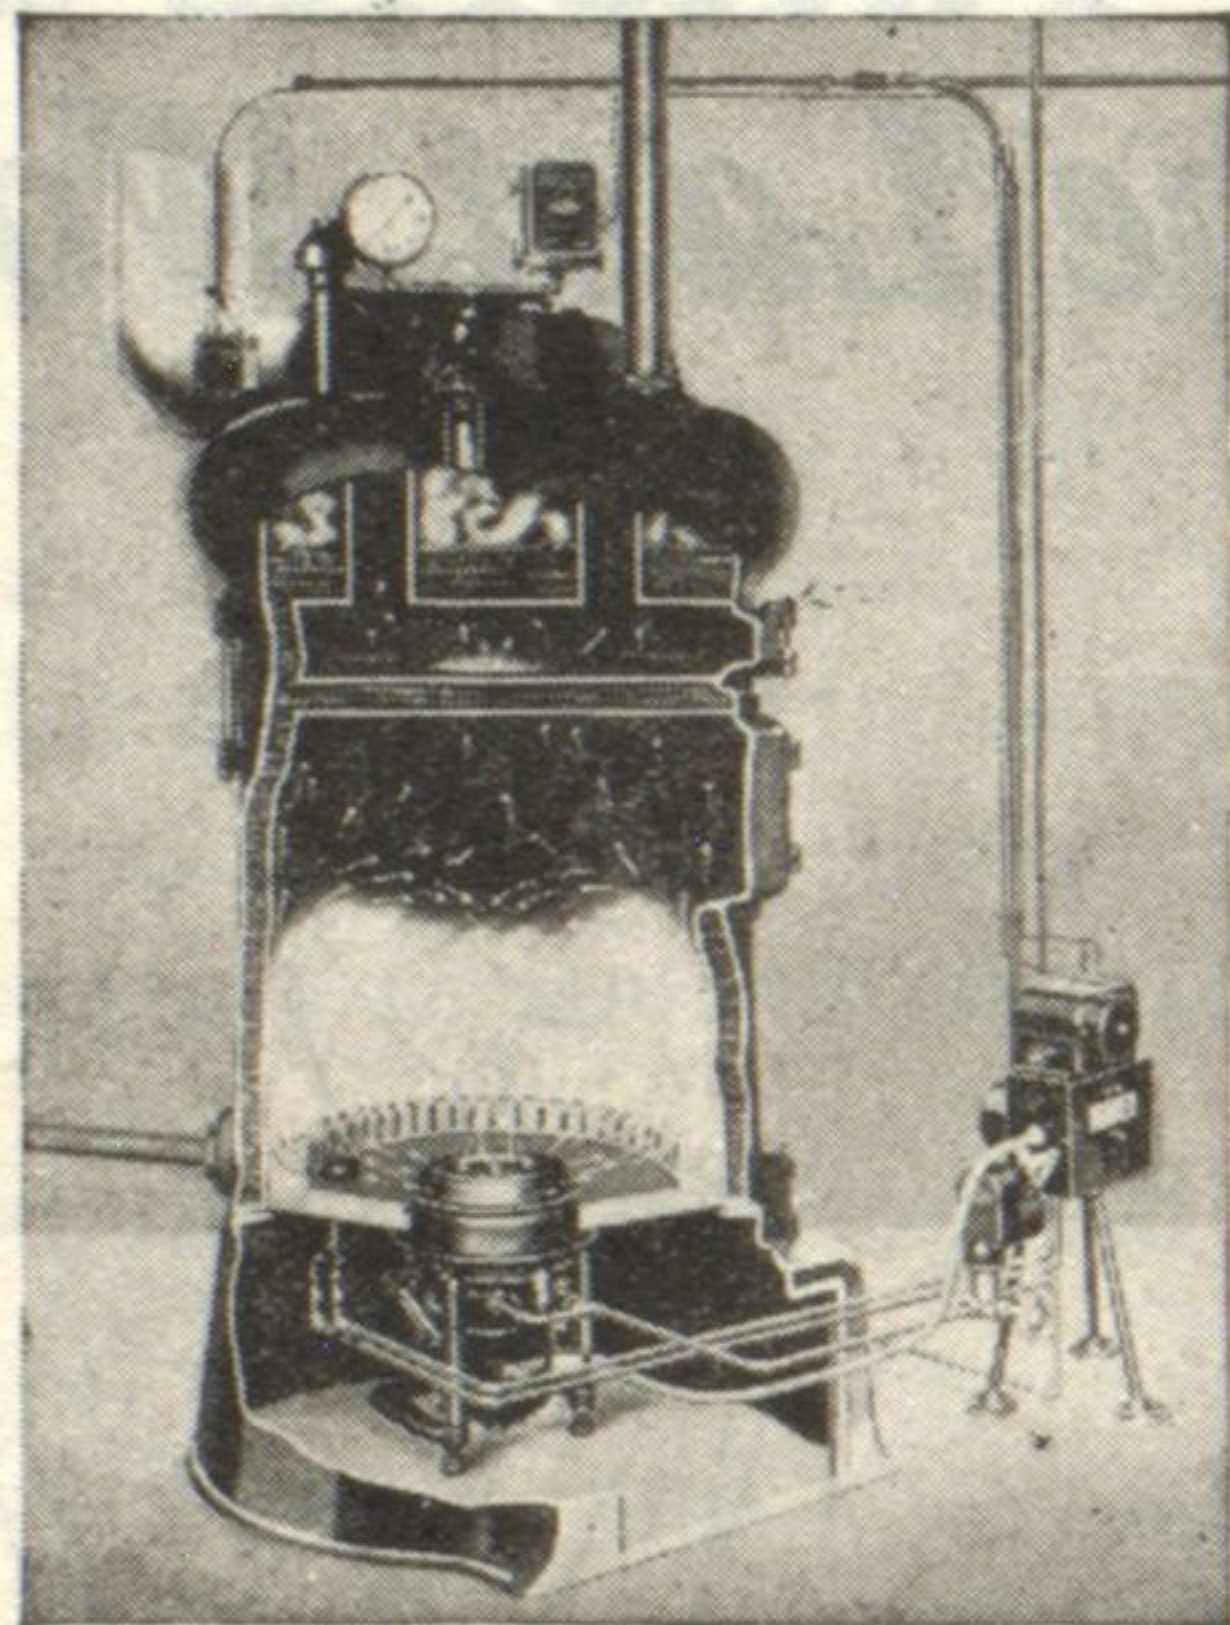

SILENT AUTOMATIC

THE NOISELESS OIL BURNER

Gold Medal Award Philadelphia 1926

During the past five years thousands of oil burners of different makes and varieties have been sold. The so-called bungalow or small house type for \$150.00 to \$350.00 are being removed and replaced by larger and better equipment because of the great number failing to heat the house satisfactorily or cost too great to operate, to say nothing of noise, smoke and soot left behind.

THE SILENT AUTOMATIC

is the only successful oil-gas burner made today and we are outselling all other makes because oil-gas and flame placement is the only way you can reduce the cost of heating with oil, which accounts for the tremendous savings made as reported by our users. (Ask for list.) Owners of small homes bought low price oil burners to their sorrow. Are you going to profit by their experience or are you going to be one of those that Barnum said was born every day? Use your own judgment and investigate the one outstanding TRIED and TESTED Gold Medal Award Oil-Gas Burner capable of heating your home or a mansion and absolutely backed by guarantee (and tested by users) by the largest and most responsible exclusive oil burner manufacturers in the world. See the marvelous working of this most successful oil-gas burner of the age. One size burner—you take no chances. Before buying a small house type oil burner, ask to see the list of users. But be sure they are using that very one and especially the size.
