

### McGuire and Orr Announce Recent Important Deals

The brick residence located at the Greenwood avenues, Glencoe, has just southwest corner of Washington and been sold by Mrs. Jessie W. Wuichet to S. J. Gillfillan, vice-president of the publishing firm of Frank E. Compton company. The land included in the sale is 110 feet on Washington avenue with a depth on Greenwood avenue of 182 feet. The residence, which was built several years ago, is of brick and slate construction containing eleven rooms with three bathrooms and an attached two car garage. The purchaser has been a resident of Glencoe for some years, owning a home at 241 Fairview road, which he will vacate on or about October 1st upon taking possession of the newly acquired home. The location on Washington and Greenwood avenues is within a block of the club house of the Skokie Country club.

Another sale in the Skokie club district was the sale by H. E. Hoover to Alfred R. Watt of 100 feet of vacant property immediately adjoining the 18th fairway of the club. The purchase was made by Mr. Watt with the idea of erecting a fine residence.

The sale of Lot 56 Skokie Heights by Stanley P. Farwell to D. W. Lewis was made recently on which Mr. Lewis has started to erect a brick residence that will cost about \$35,000. This lot fronts on Eastwood road. Directly across the street from this lot on Eastwood road Thomas I. Simpson sold a new brick English type residence with slate roof, containing eight rooms, three baths and attached garage. The purchaser was William Otter, of Wilmette, vice-president of Marsh and McLennan.

On Lot 21 Skokie Heights, facing west on Bluff road, Elwood G. Glass

### Christian Science

"Mind" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, Sunday, Aug. 19.

The Golden Text was from Proverbs 2:6, "The Lord giveth wisdom: out of his mouth cometh knowledge and understanding."

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Finally, be ye all of one mind, having compassion one of another, love as brethren, be pitiful, be courteous" (I Peter 3:8).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "When we realize that there is one Mind, the divine law of loving our neighbors as ourselves is unfolded; whereas a belief in many ruling minds hinders man's normal drift towards the one Mind, one God, and leads human thought into opposite channels where selfishness reigns" (p. 205).

Guy S. Osborn, Jr., formerly of Kenilworth, is making a three weeks' motor trip to Canada. He will spend part of his time at Duke Child's camp near Duluth, Minn.

is completing a fine brick residence of French design, which he will occupy shortly.

The sale by Samson I. Eisendrath of his home at 527 Cherry street, Winnetka, to an undisclosed purchaser has just been consummated. The land has a frontage of 120 feet by a depth of 187 feet and improved with a 10 room frame residence with 3 baths and two car garage.

### Back to School in Comfortable New Shoes!

WITH SEPTEMBER just about a week away, thoughtful parents are already looking after the necessities of the children who will soon return to school. And what item of school-day equipment is more of a necessity than the correct type of shoes—the comfortable, properly built, sturdy, long-wearing shoes of the kind that bear the Pool & Piper name?

Here you'll find the right shoes for the growing feet of boys and girls of every age. You should not provide your child with anything less—you cannot give him more!

### Nature teaches precision

TREES and shrubs are living things. To bring them to a stage of strong growth and luxurious foliage is as truly a science as is that of other living organisms. And experience in this field counts as surely as in any of the great professional arts.

We "bring up" these trees and shrubs of ours in our own gardens here on the north shore. Acclimatization is therefore already accomplished. After our careful transplanting to your home grounds, there is no period of doubt or experimentation in sturdy growth.

Let us give you the benefit of this precise nursery science.
