You can't
"Know Winnetka"
unless you know
its business men

THE NAMES appearing in most of the advertisements on these pages are familiar to every reader of WINNETKA TALK. The faces of the men whose pictures belong in these spaces will be as familiar to many of you.

But the question is how many faces you can "hook up" with the proper names. That's the proof of how well you know Winnetka and its business people who serve you and your neighbors every day.

Get out the shears; cut out each picture on pages 60 and 61. Paste in the proper places as many as you know. When in doubt, call on the business house in question and make sure.

Remember, it's the first correct answers that win the prize money. So don't lose any time!
